

LF told me yesterday while we were talking about another matter, the reason for his call, that he would finally have time today to check the D. Hunt files I've been asking him to check since the crash. He picked today because the H. Hunt suit vs. UAL was to have been today and because there would be a manpower shortage in the coroner's office. Well, the trial was delayed a month, but LF made out fairly well. There is a fair amount of her property not accounted for but trivialities are (38B Sears bra, St. Thomas blouse, etc.) Some of the contents of her purse are not listed, so of her jewelry isn't, and there is no indication of any luggage. (I have the story on that.) Also, her file was removed from the other crash victims' files. He is mailing xeroxes plus copies of other similar records. He will now check with the cops. They should have a separate file. The dates in today's letter to Tom Susman are not from LF but from what I have long had. The \$100 bill with "Good Luck F.F." written on it is not addressed to her. Maybe he wrote it on for her may it was earlier written for another purpose. Maybe someone else wrote it? I don't see why a Miami Cuban would write this on a bill that was to go to him and his, clandestinely. More in time. HW 7/17/74
