Dear Ms. Huston,

I am the one who eschew theories, whose work is entirely factual, regardless of the pretenses of the subject-matter ignotamuses, like David but although I am in general aware of most of the multitude of theories about the JFK assassination, I hardly know what of the many questions I've asked myself could be helpful to you, knowing nothing about what you would want it to fit. The universally unrecognized problem is that the crime was never officially investigated thus there are no real lead for private persons to follow.

I'll respond, I hope you understand with less detail that I could because I'm past 80, unwell and can't keep up with my own work.

The bubbletop was not bullet proof. It might, probably would have, prevented very accurate shooting because of its effect on the bullets.

I have no way of guess what would have happened if the shooting had been where it was.

I know of no reason to even suspect that LBJ and/or Dulles had any involvement in the crime and I know of no information suggesting it.

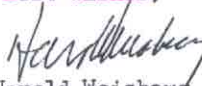

If there were any FBI files on Rose Cheramie I do not recall any. Remember, she was on dope.

As I recall several people reported seeing smoke but I do not recall who they were now. That is in the Commission's and the FBI's files. I recall only a single report of a man with a rifle near the knoll, not on it. On the tracks to the north of it.

If LBJ was interviewed by the FBI I do not recall it. I think he was not.

There is no charge. But thanks for offering, as few do.

Best wishes,

Harold Weisberg

Dear Mr. Weisberg:

I am writing to you to ask for your help. I am currently writing a piece of fiction and while I won't bore you with the details of the novel, I would like to "pick your brains" so to speak.

I got your name and address from the back of a book by John H. Davis entitled the Kennedy Contract. However, he neglected to state whether you charged a fee for your services and if so, what that fee might be.

While I am most interested in some of the 221,000 documents you possess, I have no idea which ones would pertain to my needs. Therefore, I would like to ask you some questions first. Any additional information you can offer which may be valuable to me, is most appreciated.

1. The two main characters in my book are discussing the assassination of President Kennedy. I would like my characters to have several thought-provoking questions to put forth. Based on this, what are some of the most often questions regarding the Kennedy Conspiracy theory? What are some of the questions you ask yourself?
2. Speaking of questions, I have been wondering what would have happened had it been raining in Dallas that day and the bubble had been put on the car. Would they have shot anyways? Would they have waited until he reached the Trade Mart Building? Would they have sought out another time or event altogether? My knowledge is somewhat limited as I was very young when most of these events took place and I am a Canadian. But I believe that the events had to take place in Dallas because of Lyndon Johnson and Allan Dulles' connections. Am I wrong in assuming these facts?
3. Are there any files or reports on Rose Cheramie? Did the FBI have prior knowledge of this "contract"?

4. Are there any FBI files with statements from eye witnesses who said they saw smoke and a man with a rifle near the grassy knoll?
5. Was President Lyndon Johnson interviewed by the FBI and if so, do you have copies of those FBI files?

I hope I have not taken up much of your valuable time. I appreciate any and all information you can provide. Please advise me if you charge a fee for providing me with the requested information.

Thank you for your efforts in this matter. I look forward to hearing from you at your earliest convenience.

Regards,

Bev Huston
