Dear Corky,

No - ---

Four letter dated May 25 and postmarked with a twoodigit June date I cannot make out came when I was started on the trip on which I'd hoped to get together with you. I presume Art Kevin has told you that I had to curtail kt to do yesterday's Good Morning America show on ABC.

Although I had originally declined to do this show unless it originated from Dallas, where I was, I did heed the advise of younger friends and didgo to New York. Now that it is over have no reductance in acknowledging their judgement was correct.

At some future date I look forward to a trip out there. The zany Ray escape attempt did him no good and loused up my life while restricting my sleep severely. That many reporters did keep the phone where I was that hot.

Between all this and the 100 degree Dallas temperature I'm pooped and long for my youth of two y ears ago.

I have read your letter twice, once when I returned yesterday and earkier today. It is helpful and I do thank you for it.

I'm too tired to go into it now. There remains quite an accumulated stack now reduced to official FOIA letters. I'd hoped that there would be a reduction in the air pollution, which has been in the dangerous/range for several days and that with this I'd revive. It has not happened.

I think I wrote you that Hall came up to me before that brief hearing to suggest that we get together after it and that we did.

What surprised me is that he then said exactly what he had in 1968.

And about everything I cluld remember.

Her And his lawyer, also his cousin, told me that the committee had his notebook you told me kinks your then associate had destroyed. After both of you lifted th it. I have been told by other sources that it includes certain notations of relevance.

Naturally, as I think I wrote you and might be sure if I were not so tired from the little sleep and the much travelling and the 100 degree days, I want very much to know how these muts of an assassing committee could claim to have what you told me long ago had been destroyed.

And if enything else was not then destroyed.

Sincerely,
