what is in the FBI reports in Vol 12. Mostly social, gatherings of party at Lorraine prior to shooting. Little sleep, fuziness on dates prior to 4/4, says March rescheduled for 4/8, which would have given King time to leave and return. Very interesting is this confirmed account dodged elsewhere, that when in Rm 212 201 King said he was going to Kyles' for dinner and invited Mrs. Davis. This was at 5:45 p.m. 4/4. e then returned to his room to freshen up. Does this not mean that bathroom assassin would have had earlier and perhaps better shot at King introduce shot had been from bathroom by man in it for an hour.

Davis, Quanton info is pretty clearly what , rank took and embellished.

Masked name after this and before Del Monte is on card that refers to 12/18/67 phone call from pay phone near Provencial pool to Los Angeles 934-2329. Next, taken from stationery at Provencial undoubtedly months later is to \$ 52401131, Chamber Commerce.

DeShazo, John Webster. First attributed to extradition affidavit has him saying that Ray bought Model 700, .243, saying he was going deer hunting in Wisc. with brother. This is next day's story. Third says "De Shazo's attention was called to this man because he obviously didn t know anything about guns." In this version the hunting it "isk with his brother-in-law."

Dollahite, Vernan Vernard, she off's ptlm, in Tach Squad 10. Five cards cited to X-30,81, 83,96,101. Although the first card says "Farked outside and took charge of evidence at Canipe's Amusement Co." "gose following prove this false. He was in firehouse, heeard shot, are "jumped over fence, dropped down 10' retaining wall, ran to driveway on Mulberry (apparentlu into Lorraine) .... north on Mulberry to Hulan, west on Muling to Main, south on Main to im's Grill. Saw no pedestrians..." It is he who told all to say inside the grill. After this he went south and then z "saw items in doorway." "e left and later returned when "he observed tire marks in road probably made by car parked in 2nd space."

Donne;;y, Edward, cited to A 10/8/68, p.10 "John L. Rayne signed page 13 of registration book, and stayed in basement apartment at 2731 N. Sheffiled," giving no time. "Said Ray had trouble with his feet." I do not recall any other reference to this but do recall Ray telling me this and how the trouble developed. Next card, Gloria Donnelly, same cit., p.12 dates signing at 4/30/67 and duration 3-4 weeks. More on bad feet. "received one letter from Canada. Said he was going to work there."

Dupepe, Bryan, V#7, given as owner-manager Provincial Motel, says Ray's room @12, "#126, composed of 2 small rooms, one on each floor, connected by spiral statis ... "

Name masked, after Elliott and before ESCO, 5 cards refer to taking of pictures "body of King and environs," "rooming house and environs" and to the developing of other prints.

Eskridge, Chauncey, five cards from one of which SA Joe Hester's name not masked. At I-50 he "was watching King at time of shooting," which means that the flophouse was to Eskridge's left."Eskrifge was facing seng, heard sound to his right ear. King was facing mulberry Street .... " This eliminates flophouse however else FBI phrased report.

Name masked, immediately after Eskrifge, cited to I-43 under Lorrange, "Arrived at Motel

was tending King's wounde." (Note earlier reference to McCullough and this in volumes.)

Finley, Burnell, three cards I-71 has him behind Canipe who went first and said,"get back, there's some kind of trouble out there, and I don't want no part of it."

This account, the FBI's version or both here become totally incredible:"Saw Deputy again [sic=walked past once first], then heard "screech" of tires and saw White Mustang speeding north on Main St., past store."

Fleming, Dr. Julian under Autopsy, cited to VI-72, "Dr. attending Sing (heart specialist) Flikelds names masked here.

- wasked name-obvious reason he destanys official account 4 cards VI-50,5354,\$ 59, all under Lorraine where they do not belong, from 3rd card; "Antered "im's "rill approx. 5:05 pm,walked between white Austang and white Gadillac...mustang because parked where \_\_\_\_\_\_usually parks." ,hos one owned blue Wamane parked accross street. Now a counting of the spaces blacked over by the FBI comes out even with "Lloyd Jowers."
- Francisco, Dr. Jerry T, five cards all "autopsy." Says little, that he "wrote autopsy findings and death certificate..."(first card) cited to extradition affidavit), VI-74 "furnished 5 photos of "ing's torso taken 4/4 - post mostem exam."("ard 2) "Gave
- bullet from body to" name masked, I-149; "pathological diagbosis," I-100 1? on 100); and "Autopsy report, including diagrams," I-181. o more. Not evan a cause of death or opinion on number of shots of damage from shot-mothing at all. (This is end of my separation into volumes of the first from the order in which delivered to me.)
- Frazier, Robert A, three cards only. 1st, I-145 is on receipt of physical evidence 5:10 a.m. 4/5/68 from SA Fitzpatrick, of "(@tems found outside Canipe Amusement Co.)" Second card, cited to extradition affidavit only, reads in full "On 4/5/68 received firearms items from Fitzpatrick. "ade ballistics analysis."Then 3rd, cited to I-149 and under "Autopsy," is "Received bullet from body from Fitzpatrick 4/5." Less informative these could not be. But if he made a "ballistics comparison" he had to have test fired rifle. This also was before he received the other relevant evidence.
- Gaylon, Dr. Ted VI-71 (possibly just a mention of name) "attending doctor" at St. Joseph's when hing was brought in. "Applied treatment."
- Garner, "immie Delton. 14 cards + two of sister, Miss Robbie Lee Garner. The first, IV-47, also has day checking in there for the first time 4/5/68, between 5 & 6 p.m. "Garner noted that Galt drove black car,,," And Galt moved in "on April 7" moving from Room 5 to #6 same day. This also has "ay and another telling Garner together that they were leaving on 9th "to go to Michigan," both rooms vacant next day. With three postmasks on two letters to Ray, 4/1/9 and 10, "Garner unable to explain how letter was sent to that address before April 5." IV-53, Garner "unable to explain how he discovered that man's name was Galt." IV-54 this becomes "Galt rented room on March 24," an entirely different room. Now he claims that it was on April 5 that he found Galt's notebsaying he would be back for TV. "Garner destroyed note." Garner gets on hard drunks and has no recollections.

Ghormley, Lt. Judson Eugene, under Lorriane again where this also does not belong. Two cards cited to I-60. He was assigned "ac 10, 3 cards 12, officers. In this account it required a "Negro detective" to run "into firehouse" to tell them "ing was shot." This on has he "ran east on Butler to Mulberry and north on Mulberry toward Lorraine Motel... retractes steps around firehouse and ran north on Main. Noticed " bundle and "Relayed information to dispatcher by walkie-talkie...guarded the articles so no one could disturb them" until other officers arrived.

- Graham, Julius, 3 cards, I-71, I-75. Whether it is in the retelling this is s garbled account. Even time, sequence events confused.
- On one page first name "In Tactical Squad #10" is obligerated while that of Plt. Wm. E. Gross that follows is not. (I-99.) After Gross left firehouse for "ulberry returned to "ain, then "anipes, where 2 police and deputy were already. He remained and guarded. This may be the origin of the following investion, "if person started to go south on "ain first think he would have seen were [sic] 3 police cars. Possibly explains why man dropped bundle."
- Hamby, Lt. James D. Card remarkable for brevity in most 10 cases. In 7 is is no more than "Interviewed\_\_\_\_\_\_with SA\_\_\_\_\_, name FBI agent obliterated. These are Stephens, Reevess, "arley, Canipe, Finley, Graham, Bodenheimer. All 4/5/68, quite a day unless police were bringing all these to one point, like police Hq. Hamby also retrieved the slug and gave it to Zazziaz Zachary and, cited to extradition affidavit, "On 4/5 went to rooming house and removed window sill in bathroom (Q71) and gave it to FBI." He had him a full day! Other ciantions to I-22,30,37,67,71,75,78. I-154 has him "observing what appeared to be a recently made indentation in windowsill...removed substantial portion of Sill. With SA\_\_\_\_" name obliterated. This puts the FBI in on the windowsill canard.
- Name masked but it is Hanner from text who was at Accomarine 3/29. "Hanner's attention was called to man because of his obvious lack of knowledge concerning rifles. Man bought a "emington from salesman Baker...While man was watching Baker install [sic] scope.
- THIS IS EVEN MORE IMPORTANT THAT DE SHAZO'S COMMENT ON RAY'S IGNORANCE OF RIFLES. Because what the never-mentioned Hanner saw is a) a manner of attaching a scope that is just about worthless and b/ is exactly the way Frazier's suppressed lab report says the scope was attached when he got the rifle, the screws so loose he did not have to use a screwdriver to remove it. Or, a rifle they all knew was not used in the shooting! Even with the acceptance of Frazier's misrepresentations about slug this and it should have been more than enough foracquittal

Hanner not in Frank's index.

- Name obliterated, just before Harris VI-45 under Lorraine:"At motel. Left 5:45 p.m." Name obliterated, before Hartzell, VI-49, "gave info on (blacked out)arrested 4/5 as

- Hedgpeth, C.M. Although name is masked in records from L.A. here he is the mail forwarding service advertised in FREEP from which on 1/29/68 Ray hired forwarding service 2/1/68-3/1/68 for \$3.00. Nothing forwarded.

NOTE ODD DATES. Ray was still in L.A., from what we know, and did not leave until after end this period. I have reports he had left, huwever.

Name SA blacked out. V-30 he located number Provencial pay phone near pool, 523-8802.

- Huie, Mm. B A 10/8/68, saw Klinegmans 8/20, showed "letters from Ray addressed to an attorney in Miss."
- Name blacked out, right after Human, K.L. and listed under Lorraine heading:"Arrived at Motel 5:55 p.m. 4/4 in white tempest of (blacked out) Lives in Orange "ound area of "memphis." I-43. Very next is:
- Hunt, "ary, I-46, Lorraine, "Climbed up balcony, standing near McCullough who was tending King's wounds."

Hurley, Charles Hardy 1-103, .eft at 4:48 but says stopped behind white Mustang with man sitting in it. "soufht of" Canipe's facing north. Next cards, wife Pegey, similar.

E. Lapyy Hutchison, Canale's office, in flophouse search approx 7:50-8:00 4/4. Gas to FEI.

- I,J JACKSON, Jesse 1\*45 "Seen by McCullough looking at his door at Ming just after king shot." Exact, complete quote. Next, I-53, "Standing by Room 305 hen "ing shot." They even graced him (VI-21) "at church morning of 4/4 hwere SCLC strategy meeting assause occuring."
  - Name blacked, FBI agent III-111 Regenerate 21 calls made from 459-8096, "phone records of Galt from 11/27/67-1/22/68." on 115"Obtained names to numbers called on "alt's phone" on 4/13/68.

VI-39, "Talking with bing just before shot 4/4" all

Name blacked, I-111,113 both say Cadidlac parked outside Jim's grill 4/4 late p.m.

Jowers, Jim on all 6 cards. VI-48, has him arriving 3:55 and "parking "behind white mustang." No more on this, more on strange customer. VI-50 had his cadicalle there 4/4. VI-54,57 "cadillact north of hydrant behind mustang."VI -62, bl cked-out name confirms.

Katzwinkle, mase blacked out all mentioned, here on four cards, masking of what was long ago released and not in any sense required by privacy. Even the number of her apartment at the Serrano address.

- Kelly, Herbery, cook at Economy rooms, B'ham, says Ray paid for his meals "except during last[weck] during which he didn't buy meals, saying he had no money." Remembers on several cards because Ray always late for breakfast.
- Martin Luther Ling, many card, not counting.

I-43 "Seen by McCullough standing on balcony 2d floor in front of room 306 just before shot. 4/4/ seen by McCullough falling backwards, grasping throat." I-45, "McCullough applied pressure to "ing's wounds - first to arrive at king's body." Plural on wounds on card. I-46 "Abernathy applied pressure to "ing's wounds after McCullough." I-61 "Seen fall by maid. Ceolar Shavers, after shot." I-89, "Seen fall backwards on balcony by Charles tone." (Note to self-in Serron's notes he is fireman.) I-90, #seen shot by fireman woenneke, King and FD Sichmond at firehouse." VI-99 "lab exam of "ing' clothing."In I-90 Foreman King is Wm. Also I-91. In 97 he is William Eighop. Complete confirmation of Frame-Up, "States that newspapers covered windows so that Memphis Police could keep Aing party under surveillance without being seen.Thinks shot was from rifle and came from left." Left here is ambiguous but even if from forehouse it does not mean flophouse and would seem to refer to park lot area.

- Klingman, "ary I A 10/8/68 "demember May arrived at work with swollen feet; was given Ace handages." Followed by "arvey K, same date, followed by"<u>Huie Story</u>" Indian "rail is at 507 Chestnut St, Winnetka. Note my earlier note this address, I think there in reference to K.C. Snrt last of 7 check to brother at Northbrook, Ill. But what is called Huie's story is hardly it, like "Mide said "ay did not actually kill "ing and would identify killers at trial."
- Kyles, Rev. Samuel. One of several cards, this end last, VI-37, "Some people pointed to empty land and bushes, indicating shot might have come/attracted indicated and bushes, indicating shot might have come/attracted, with ing shot in the from west to cast." The one thing this did not need indicated, with ing shot in the front and facing the front, is that the shot came from the front, or west. What Kayles was really saying, as - had him saying in F-u, is that shot did not come from the flophouse but came from the land and closer to the south than the flophouse.

Name blacked out just before Landers Given as PMD and under Lorraine heading I-30? "Alcaled to back of Romming House." Total entry. Apparently Terrance H. Landers, who also jumped down of wall and went back and found only 2 prints, which he says are all since it has rained recently.

Lau, Thomas, III-131, recall ay drawe dark car. Regularly at school 1/19-322/68

Laue, "amos ", in 300, ext. affidavit.

- Blacked-out name before Lee, I-20, I-21, two entries, "Watched TV in Anschutz's room the afternoon of 4/4." and "(blacked uout) Anshutz does not know if she saw man run past door."
- Lee, Rev Bernard Scott, 155. Was at steps at north end of courtyard looking toward it or north.. "Looked at buildings accross street but saw no one in windows."
- Loennake, Fire Lt. George W., 3 cards, two citations, both sceningly excessively brief. I-9-;"In firehouse-saw Aing shit." I-97:"At firehouse window looking it "ing on balcony." Middle card, I-91, says he was "observing King when shot" and "Announced to firemen and police that King was shot." With no time interval indicated, "Ment out front door to Main St. Saw no vehicles or pedestrians." If he went as soln as he announced he would have had full view of street before anyone could have gotten there from bathroom after making package. "Thought shot came from left of firehouse" could be anywhere to the north pole but it is not formulated in a manner to indicate the buildings to the left. The "No other information" obviously is false because there was a spy post at that door of that firehouse and he is not reported as saying so.
- "ouw, coseph, VI-41, total entry:"photographer at motel who took pictures in vicinity after shooting 4/4." You'd never know the FSI has those pictures.

McC McCullough, Herrell, I-42-47. "Negro, active in COME , arrived Lorraine Motel about 5:55 p.m.4/4/68, in his car with Rev. James Grange and Rev. James Bevel." arked in lot, "just south of old Motel portion" means about where King's room was."...room 306, Which had been King's room during his recent visit to Memphis. Aing was leaning over rail. McCullough saw no one else on balcony. Walking back toward another car, "c Cullough heard explosive sound he was [sic] standing and facing north. His position would be south of King, who was facing west. Heard someone said King had bee killed. Looked up. Saw King fall backward in southeast direction." (Heard he was killed before Ming fell?) McCullough ran to King and applied pressure on wound with a towal given to him by someone else. Relieved by Abernathy." Where are the others whose names are masked in his car, familie Mary funt, etc. No

ref to louw's pix of this.

- McIntire, Honald G, III-113, "Subscriber to phone number Galt (Ray bought TV from them, III-115)
- Martin, Marie. Aumerous cards on which the masking not necessary. All known. Masking makes for needless confusion, as in most cases it will for all except the well-versed.

Medrana, Manuela Aguirre (same as Irma Morales) /Said he"Gould not dance." And "Furnished photo of Galt aroung 11/3/67."

N Nance (Lay) name masked but not secret, used often elsewhere, found in Mustang. Third notebooks resumes with remainder Ps.

Almost all names for several latters have been masked. The copies are from a different machine. Some of the masking is either silly or deliberately excessive, indications are by a different person who thinks differently, even more of an FEI hardliner who is opposed to anyone knowing anything. Some, like the oblitering of McFerrin's name, can be from lack of knowledge of the facts of this case. But then there is also much missing, like the togsh FBI interrogation, to take the same case, of "cFerrin. No reference to the stuff from Sartor, of which I have copies from his former wife.

L

Q.R Aftee Ray, Earl William, oblitergated name of one who recognized owners of two white cars on Main street, white Chewrolet and white Fairlane, "and Cadillac of Jowers," which also was white, as not stated here and certainly was by witness. Do earlier references also hide color Howers' car. This reminds me, no mention of McCraw, who is explicit on this and whose trip ticket or manifest wasmi immediately confiscated by the FEI.

Ray, Jerry, 9 cards, first a listing 21 dates of money orders he sent Jimmy at MSP

Ray, John, 7cmrds. Cited to B LHM 6/17/68 p. 1 is note he visited JER at MSP"9 times, last on 4/22/67 day before escape."

Name obliterated, after Reddock and before Reedy, VI-66 and quite important in terms of supporting what Jimmy told me, other than official account:"Left Jim's Grill between

5:15 and 5:30 p.m...Noticed off-white Mustang with dark interior...walked north on east side of make south main. At intersection of Vance and south main he looked back and saw mustang about ready to turn corner and go east on Vance from south main.Does not know

if this cap was the same as the one he saw parked but thinks it was." Had friend with him. This is the story Jimmy gave me except for Vance. Jimmy described making that turn but was uncertain of the street. He provided two different maps, consistent but with a different number of streets before he made his right turn. The Greyhound station figures in his map but is a greater distance from Main that he shows.

This is one of many exemples of the FNI having and keeping secret exculpatory information. It not only could not place "immy at the scene of the crime, it could place him not at the scene and suppressed that, too. This is one of a number of mutually-confirming witnesses who place his car in an exculpatory location before it left and have it leaving at a time that eliminates him as the sheoter.

Reedy, Mrs. Catherine, II-88, Hented safe box B'ham 8/28/67, in it 9/5 from 1:52 to 1:56; 9/2 9/21, 11:04-11:08;9/28, 10:16-10:19. "Heys surrendered by mail Dec. 13,1967." Does not give postmark.

Reeves, Bertis L., 4 cards: I-17, left Room "when shot was fired at same time as Brewers;" I-30: saw man at landlady's door about 3;after shot walked to rear entrance and "told by police to stay inside." I-37 :"Heard shot 4/4 with Brewers." VI-8 "Could not identify photos" of Ray of 1955,1960,1966) or bedspreads. (Why was he not shown claimed 1967 and 1968 photos?)

The omissions in what "eevese said cannot be accidental. They place the shot from the parking lot, not the flophouse.

Reissner, Dr. John, VI-71, "worked on blood infusion" at hospital. Check on Francisco?

- Richmond, Phi I-90:"In firehouse -Saw King Shot." (This is not the first explicit statement he was there. I note it because he is not saying he was not.)
- Robinson, Raymond, VII-4: "Runs motel in Senatobra, Miss had temant with white mustang with Alabama places." Total entry. "Miss lined through, "Runs" written above. "Senatorba" corrected to "Senatobria," which is about 30 miles directly south of Memphis nr. expresswat. I go into this to indicate extent to which motels were checked while there is no ref. to DeSoto, which is close to Memphis, just over state line, and on different road, the eld road south, US61 as I recall.
- Schwarts, Frederick J., "ondon B LHM 6/14/68, p. 2 "Interested lawyer in Ray case spoke to Scotland Yard re interest." Second card, same citation, "Background info re 'academic interest' in case.

Name obliterated of FBI agent when the source cited is public-extradition affidavit. Name masked before Sheldrick, of another Lorraine maid who "saw ing fall."

- Name blacked out, I-163, "Took to photos of Canipe Amusement Co: both of front showing bundle. 4/4/68."
- Name blacked out, I-165, under Lorraine Notel:"Also took photos of Lorraine Motel and environs - separate numbering system to distinguish photos from (blacked out)"
- Name blacked out, I-163, under heading RH-Mem.: "Took 13 chotos of interior and exterior scenes of rooming house: interior 5-b, hallway, rear stairs, rear bathroom on 2d floor, etc. 4/4/68." Just before Scares.
- Name blacked cut, right before Spain, Walter, MPD, listed under Amusement Co." and of MPD. I-30," In Tactical Squad 10." I-S1, "Carked outside Canipe's Amusement Co." This is so impossible a summary the error cannot be passed off as accidental when it is the official mythology that when Ray saw a police car he dropped the package and bolted. Those cars were parked on the fire-house apron, which was hidden from Canipess place and the sidewalk near it by a row of bushes the two street-ward most of

which were triamed off at the rgound soon after the assassination.

Sprunt, Dr. "Pathological analysis." I-180. On fancisco?

Stein, Charles, name masked on many card all dealing with the already well-publicized.

Stephens, Charles and "race, 13 cards on both. R-h Mem. I-19:"...6-B. Man has TB and wife confined to bed."

Attributed to Extradition Affidavit this falsehood:" Identifies profile photo of Ray ..." Maybe not, maybe he did ID man on checking in but I think not. VI-5"Photographs of James Earl Ray (1955,1960,1966)...1955 and 1960 photos unfamiliar but 1966 profile photo looked like men he saw in Apr 5B..." Now this is evasion when he executed an affidavit allegedly identify a man at the time of thes crime. The actuality is Stephens refused to ID and is filmed by CBS saying positibily the Ray picture is not a picture he could identify. On their 1975 King segment. From the two cauds on Tracie one would never know that she got out of bed and saw a man she described as other than Ray, as from the cards on Charlie you would nevr know he was drunk and entirely out of it.

- Stone, Charles Elvin, I-89, listed under Lorraine Motel, naturally, all heading being designed to mean nothing to others outside the FML. The names of two SAs are blacked out: "Observing King from fire station when abot. Announced to fireman and police that Aing had been shot. They thought he was joking until someone else said the same thing. Went towards Mulberry Street, saw mass confusion, went back to firehouse. "amed other witnesses. - Blackedout name under Amusement Co to which it has no relevance and cited to I-110. There clearly is an error her that I'll suggest: "On Corner Anling of South " ront Street and Huling Street when told by officers to go inside Jim's Grill. Saw or heard nothing." First of all it is not likely that cops in the plural would have been a block and a half away, out of sigh of Grill, farthur from Lorraine. Were they it also is not likely they would have sent a non-suspect to the grill to await nothing. What is likely is that this person was at "outh Bain and Huling. Jim's rill, like the Lorraine, is in the block the nother end of which is Hulfmer Dutler." If this person "saw or heard nothing" he had to have been inside a bldg. Saw or heard nothing about what? If he was on the street he had a chance to see a departing car. They were anxious to have that car seen departing. Only not when it did-later. So they have to fudge in the processor

MEXT SECTION HEADED "OF & K# LAB EXAM."

Fizzt item is duplicated card sum arizing Bonebrake's extradition affidvit. Sets time of identification of prints at 4/19 and with LA 10/11/2 49 prints which are identified as same as those of undated MSP FBI card. Next card XIII-63, "remaining unidentified prints are not Jerry William Ray's." No other name in this sense, with all the unidentified prints.

Next is long series of 3x5 handwritten cards reproduced 5 to the page each with an item only some of which are attributed to kay. Second is not, "EA #074 flight from wondon to Lisbon -5/7/68 List of crew members."Some appear to be self-serving with omissions to which meaninks can be ascribed, bottom 3rd sheet, "All Parts Warning London 3YR-1264 All parts warning to detain Sneyd." There is no date or source. No ref. to location of a copy of it if needed. These appear to be of London origin, hence Scotland Tard's, not FEI's.

Possible explanation of Ray's pruchase tailorOmade suit bottom card p. 6, items of clothing listed, "...including a brown jacket with 'Eric Galt' inside." Twice on p. 7. It is probably part of establishing a new identification.

Top 8 Forensic lab established revolver had been fired but not recently.

2d card on 9 is first ref to "I feel so trapped." Said made at 4:45 p.m.

Throug out the names of well-publicized "ritish police blacked out.Some testified at extradition hearing. No purpose served in blacking out.

Levey, Ropkins, no first names, lawyers rep. Ray and govt in 7/18/hearings on British violations.

Bast card on 18 on Arthur Eanes "Hanes visited Ray as friend on 7/5,7/6,7/17,7/18" Next to last entry, bottom 19, "charged with passport & gun violations 5:20 pm 6/8 at police station."

This is followed by other cards on fingerprints

Then by lab summaries, conspicuously note dated except for delviery by Fitzpatrick on 4/5/68.

Cards separated into separate volume. Handwritten list made of all numbers including blanks for those not represented by a card.

#### SECTION ALLED "LANIN"

No entry dated, earliest of volumes includes is X. Says little but represents an extensive checking.

## SECTION MEADED" PRISON"

All names except of Jer.y and Jimmy masked to that of Gurtis, haymonia, on whom first entry is VI-112,"In form with Ray - talked to Newspapers."

To this point most prisoners interviewed- and there were many - were divided on Jimmy and race, most no evidence of racism, the one that is inherently not credible and saying he was going to kill King being given most attention. It some to be the one McMillan and I think Frank and "wie quote or refer to. This one attributes anti-JFK feelings to him, too.

Interesting line attributed to Curtis in & 7/5/68 p.6:"Ray suggested he would kill King and heave a false gun and trail." Is it possible the FBI was getting ready to answer proof that rifle was not used? There are 14 cards of Curtie, so the interviewe and efforts with an apparently quite undependable man were extensive. He had a "bounty on JFN's head," Mississippi klan paying Ray, other fantiful stories.

For a loner this is a strange record. 4t is lists many allegedly friendly with Ray.

One entry of full three cards, attributed to an informant "unnames" is core concludes of Ray "normal sex life." What in the world is that in prison?

This is before King, Martin Luther, under Mogen, X#39 "Said to have been subject of assassination plot. "erch 1965. Columbia, S.C." What it does not say is that this had no connection with Ray from the reports prior to this one.

One former cellmate at least 4 cards all attributed to X-g50. with names masked not possible to know whether more than 4. Says flay spoke of Campeche Say near Yucatan peninsula and Torreon or Torrejon and previous trups to Mexico following other armed robberies, 2 or 3. "...had no partocular feeling toward "ing"

When an extradition effidavit is cited as source the affiant's name is blacked out! Pepper FNU at X-49 "Could be the name of the man to whom inmate (blacked out) sent a Money Order for May in 1966." There are a number of similar references, the others being to a stationery company in St. Louis. All apprantly refer to imma one money order, for 515. Of course there are recome of money orders. gont referred to.

These are contradictory reports that if examined in toto would mean nothing. They have day at once not grabbing and gambling, etc. The number of reports that have dim not a racist is large, most of these on race.

Whater Rife's name is masked. Remarkably little from him

Under Marden Swemzon, X-13, only "'Bayled out' a guard after May's escape."

Next entry blacked out name of "first Negro officer to have general jurisdiction over prison year." He says "kew 'Jimmy'... got along well with Regro prisoners but fid not associate with them...does not believe "ay would hill Vogross and does not believe he killed King."

After this blackedout at MoPen XVII-16:"\_\_\_\_\_says above was friend of May. From baton Rouge. Talked of Merico a lot."

# SECTION MEADED "PAISON HIGORDS"

X-98, the money order of 1/20/67 wa for \$15.25 and to Albert . Pepper.

Herry Ray only entry is card listing that 25 money orders he sent Jimay at HoPen, 4 from John, X-75. Sums not given. But because Jim y was getting rich on rackets in jail? Number of Ray's fingerprint records including federal and prior to and after escape without any reference to the alleged sending of wrong ones to the FBI.

SECCION ILLADAD "PRESON MISC."

"X-31 An alaboration of his previous interview. Concerning his 1965 activities in New Orleans." Name blacked out.

Number of cards in apparent denial of Curtis' story.

Interesting timeter that with all the cards devoted to Raymond Curtis those negating his stories are filed separately and the refutations are not included with the story.

Willey, Chalres C. A 7/25/68 "Owner of houseboat in Vicksburg. Now dead. Curtis called him Willett.

Note to self: If as I believe the industrial canal is the same as the Inner Harbor Navigation Canal it starts on the Pontachartraon end between Pontchartrain Beach and Lakefront Airport. Chef Menteur is the first road to cross it away from the lakefront, between it and I to. The canals runs approximate M-S and enters the river about 1 1/2 miles from Esplanade and of Fr. Quarter. While this does place him and the mustang there at the time he told me it elkiminates the deleails I am sure me tolu the FhI, the names of whos e agents are masked, details that are supported by others and establish credibility. Searing on this there is no card on the above "Walker" and none of Jim McCraw or his cab company and its manifest. 1\*107, name masked, from Seabrook Wallpaper Co., language of card leaves it inclear but

this person could have seen the package before Ghormley was there.

VI-65 name blacked put ""eft im's Grill beyween 5:15 and 5:30 pm 4/4/68. ... Hotice of white dusrang with dark interior." Was waiting for friend to come. This is one who saw white mustang turn from 3. Acin into Vance so fits with VI-68 above.

VI-54 name blacked, "Lincoln continental parked in front of mustang." I-111 is one of several that have "white Fairlane Ford parked south of "is's Grill entrance." This one is "around 5:30-6:00 pm 4/4." VI-50 blacked-out name may be of owner, "had white fairlane ford parked at (sic) Jin's Grill 4/4."

VI-53, which has two names masked and eliminates time, reads, "parked car outside - Heard by ---- to say Mustang took hid place." VI-54,57 similar. That an entirely different car inter than the Mustang was"parked south of Tire hydrent" is what VI-59 says. Then blacked-out name VI-62 says "Enctored ints Grill approx SISRINIX 5:20,4/4/68. Recalls that 1966 white mustang hardtop was parked in space he usually uses ... " Afte wenzler and before wright, blacked-out name VI-52 "Walked in front os white mustang approx 5:05 pm,4/4/68, to enter Jim's Grill. Mustang parked in front of white cadillac ...... antered restaurant, he remarked that mustang had taken his parking place.

I-94 Ptl. Barney Wright, taking rest in firehouse lounge, heard windows rattle. He and Ptl Douglas ran back to their squad car and "put out radio broadcast of shooting." then Minnex "drove" it says here "onto Main, turned south circling (sic) fire station, drove into Mulberry and in front of motal, then down Mulberry to Huling, went west on "uling, and around to Main. Farked car." Does not say or even indicate where, nor would the uninformed reading this have the slightest notion that all it says is that they did not quite circles once city block. It does go farthur and report that when at some unspecifie'd point they "Took positions on Main outside car," and do not recall seeing Dollahite or other officers." (No. ref. to others, like abariffs or escaping gunmen). There is another and typically informative card on "WRIGHF, MPD." of I-80 it says, in toto, "In Tactical Squad # 10."

If it happened as Wright says he was in his car in less than a minute. He thus was on the street before anyohe could have come outoof the flophouse after asking any kind of package, with a clear view both ways as the car left and of any car. Now from the official account Ray's car was near the firshouse, as near as parking permitted. He had to have come out of the flophpuse with the bundle after Wright and Douglas left in their car. The firehouse is at the corner, so all the business about driving onto Main is a means of mislesding those not knowing the local geography. De lending on where his war was parked it had to be on Mafrom the unnamed street, "utler, less than the width of the firehouse. The block to alberry is short. This account does not indicate any slowing down on Mulberry and in Including that the other officers ran there eliminates any reason for any slowin down. Or, in practically no time this squad car with two officers looking for anything at all unusual had turned the next corner and were in full view of Main before they got there and then had a better view when they "took positions" on it. In short, they saw nothing, leaving only one real possibility' what there was to see transpired before they could have seen anything. This eliminates the official account. They would have had to see the car at least if it had not gone earlier. The alleged direction of the alleged Ray car was pointing north, or it would have had to pass Huling.

This is all on "MainStreet." Mext is "Kanipe's." 8 Canipe wards after 2 of Edwin Bodenheimer, which has Canipe away all day and not returning until about 5:20 p.m. Canipe binself says his store was closed until about 5 p.m.

First card has Canipe hearing thud and seeking package and then hesitating for an unspecified time before going "to sidewalk, looking in both directions." Ut then has him saying what he denied, that after this lapse of time, "saw a white, small car, possibly a compact, pull from curb in east side of Main Street just south of store." Of course this also is hardly an account of screeching tires or any hasty takeoff. But he denies seeing any car or telling anyonesthat he did. Moreover, were this true, it is still exculpatory because it provides more than enough time for anyone to escape massen.

2dcard, "Looked north, saw Deputy approaching with pistol drawn, inmediately went back into store.After a number of officers arrived, their attention drawn to bundle." It took "a number" to **intimat** "draw" attention to a bundle with a rifle sticking out after an assassination? This is designed to get around Ghormley, as is eliminating the mame of "Deputy," Dollahite, who has to have been much later than Ghormley.Ghormley to here is not mentioned.

At I-70 it is "In record store 4/4 around 5:30 pp-Heard noise - all went to look at bundle by door." This does not even relate it to shot or time of shot. At I-75 only "Pointed to bundle to show officers." (On all Canipe cards only 1 SA named and it is blacked out. One on Bodenheimer, also blacked out, as with Finley and "raham and with the mame of the golice officer who was with the SA(s). All masked not for privacy but to prevent checking and charging.

I-21 is particularly provocative because it is pointless except in bringing the entirely unidentified Ghormley in, thenwithout reference to time: "Told Ghormley of b dungle dropped outside business." He had to be told about it? Couldn't see it?

Now with all of this what the FBI certainly has to have asked is missing, like where did Canipe park his own car when he got there and what did he see of pther cars and their locations. Did he park in front? Legally? Bloacking any other car? atc. Nothing.

I-71 is both Bernell Finley and Julius L "raham, I-75 Graham only, both disted 4/4/68. Fibbley there about a half hours when he "heard mit shot, said nothing." Who can believe it? Then about a minute later he "heard a noise" and "saw man walking on sidewalk." "asier to believe than "at walking on water." But were on sidewalk? Not even direction other than away, which it also does not say? What did the first deputy do? "walked past" without stopping. Here is the best part, the shot having been fired, the package dropped, then some hesitation about going to the package and then the deputy just as naturally as in Perry ason walking pask the package:"Saw Deputy again, the heard "screech" of tires and saw white Mustang speeding north on Main, past store." If he saw the car going straight. not pulling from

curb or at than angle, it came from elsewhere - if he saw a car. The point here is that in all details the account attributed to him is impossible, not Naturally he and "raham, both there about a half hour, report making me any purchases.

The time Graham id said to have seen a man is not even indicated. , t is related only to his arrival at 5:30. He also has the Deputy going past the first time and then returning

withother officers, an obvious impossibility. His account of the screeching tires is "Before Deputy ran by." He has a white rambled blocking view of Mustang. There are other reports of a rambler, but if the tires screeched and the view was blocked if he saw any-

thing what could he have seen? Names masked heavily from here. First six card of one witness and all police and FHI. Then what has to be when Zachary end is essential to any chain of possession, the one who "Collected items left outside the Amusement Co. 4/4.), I-101

<u>Beer Traces</u>:VII-10,14,,4,11,12,15 (Bag K170)- The FBI did trace the Schlitz and the bag to Southaven Mannow shop early, as to Rexall drug store. But no mention De Soto Mote. <u>Pliers Traces</u>:27 cards on this alone! Compare with evidenceof crime itself.

<u>Zipper Bag Traces</u>: <u>Gillette Traces</u>: Bought before noon (shortly) 4/3 I-126 sold by Mrs. Peggy Burns. Reinterviewed, I-128 in apparent effort to get her to say it was 4/2. She "is positive" not 4/2 boomen and she did not work 4/4.

Chain of evidence: (See separate list of itoms of evidence) I:148; I:164; I-145; I-148; VI-85;VI-97; VI-145; Extradition Affidavit (Frazier);I-145; Mxtradition Affidavit (Jensen);"Affidavit of Zachary"(does not say extradition affidavit);I-145;I-148; I-145;VI-85: I-145; Zachary, N.E., Extradition Affidavit - Gamipe items, roominghouse stuff - returned to him by "Jansen" 5/3/62; and apparently whis is all because it is all that is under this heading. No point in an extra list. It includes the clothing, windowsill,material found outside Camipes and in the rooming house, probably the fatal alug although it is not listed and unspecified "Developed prints of (blacked out) photographs" at I-164. (This does tend to confirm what I told Wiseman about withheld Memphis police pix and the form in which given to the FBI, developed prints.

WHAT THIS MEANS IS THAN THERE NEVER WAS ANY SEARCH FOR ANY OTHER POSSIBLE KILLER and that to overcome the deficiencies in the evidence essential evidence is omitted. Example is the autopsy report and film.
