

10

First item is duplicated card summarizing Bonebrake's extradition affidavit. Sets time of identification of prints at 4/19 and with LA 10/11/5 49 prints which are identified as same as those of undated MSP FBI card. Next card XIII-83, "remaining unidentified prints are not Jerry William Ray's." No other name in this sense, with all the unidentified prints.

Next is long series of 3x5 handwritten cards reproduced 3 to the page each with an item only some of which are attributed to Ray. Second is not, "EEA #074 flight from London to Lisbon -5/7/68 List of crew members." Some appear to be self-serving with omissions to which meanings can be ascribed, bottom 3rd sheet, "All Parts Warning London SYR-1264 All part parts warning to detain Sneyd." There is no date or source. No ref. to location of a copy of it if needed. These appear to be of London origin, hence Scotland Yard's, not FBI's.

Possible explanation of Ray's purchase tailor-made suit bottom card p. 6, items of clothing listed, "...including a brown jacket with 'Eric Galt' inside." Twice on p. 7. It is probably part of establishing a new identification.

Top 8 Forensic lab established revolver had been fired but not recently.

2d card on 9 is first ref to "I feel so trapped." Said made at 4:45 p.m.

Throug out the names of well-publicized British police blacked out. Some testified at extradition hearing. No purpose served in blacking out.

Levey, Hopkins, no first names, lawyers rep. Ray and govt in 7/18/hearings on British violations.

Last card on 18 on Arthur Hanes "Hanes visited Ray as friend on 7/5,7/6,7/17,7/18"
Next to last entry, bottom 19, "charged with passport & gun violations 5:20 pm
6/8 at police station."

This is followed by other cards on fingerprints

Then by lab summaries, conspicuously note dated except for delivery by Fitzpatrick on 4/5/68.

Cards separated into separate volume. Handwritten list made of all numbers including blanks for those not represented by a card.

SECTION LABELED "FAMILY"

No entry dated, earliest of volumes includes is R. Says little but represents an extensive checking.

SECTION HEADED "PRISON"

All names except of Jerry and Jimmy masked to that of Curtis, Raymond, on whom first entry is VI-112, "In Penn with Ray - talked to Newspapers."

To this point most prisoners interviewed- and there were many - were divided on Jimmy and race, most no evidence of racism, the one that is inherently not credible and saying he was going to kill King being given most attention. It seems to be the one McKillian and I think Frank and "the quote or refer to. This one attributes anti-JFK feelings to him, too.

Interesting line attributed to Curtis in a 7/5/68 p.6: "Ray suggested he would kill King and leave a false gun and trail." Is it possible the FBI was getting ready to answer proof that rifle was not used? There are 14 cards of Curtis, so the interviews and efforts with an apparently quite undependable man were extensive. He had a "bounty on JFK's head," Mississippi Klan paying Ray, other painful stories.

For a loner this is a strange record. It lists many allegedly friendly with Ray.

One entry of full three cards, attributed to an informant "unnamed" in Cohen concludes of Ray "normal sex life." What in the world is that in prison?

This is before King, Martin Luther, under McPen, X-39 "Said to have been subject of assassination plot, March 1965, Columbia, S.C." What it does not say is that this had no connection with Ray from the reports prior to this one.

One former cellmate at least 4 cards all attributed to X-456. With name masked not possible to know whether more than 4. Says Ray spoke of Campeche Bay near Yucatan peninsula and Torrejon or Torrejon and previous trips to Mexico following other armed robberies, 2 or 3. "...had no particular feeling toward King"

When an extradition affidavit is cited as source the affiant's name is blacked out! Pepper FBI at X-49 "Could be the name of the man to whom inmate (blacked out) sent a Money Order for Ray in 1966." There are a number of similar references, the others being to a stationery company in St. Louis. All apparently refer to ~~some~~ one money order, for \$15. Of course there are records of money orders. None referred to. These are contradictory reports that if examined in toto would mean nothing. They have Ray at once not gambling and gambling, etc. The number of reports that have him not a racist is large, most of these on race.

Walter Rife's name is masked. Remarkably little from him

Under Warden Swenson, X-13, only "'Bawled out' a guard after Ray's escape."

Next entry blacked out name of "First Negro officer to have general jurisdiction over prison year." He says "knew 'Jimmy'... got along well with Negro prisoners but did not associate with them...does not believe Ray would kill Negroes and does not believe he killed King."

After this blacked out at McPen XVII-16: "_____ says above was friend of Ray. From Baton Rouge. Talked of Mexico a lot."

SECTION HEADED "PRISON RECORDS"

X-98, the money order of 1/20/67 was for \$15.25 and to Albert J. Pepper.

Jerry Ray only entry is card listing ~~just~~ 25 money orders he sent Jimmy at McPen, 4 from John, X-75. Sums not given. But because Jimmy was getting rich on rackets in jail?

Number of Ray's fingerprint records including federal and prior to and after escape without any reference to the alleged sending of wrong ones to the FBI.

SECTION HEADED "PRISON MISC."

"X-31 An elaboration of his previous interview. Concerning his 1965 activities in New Orleans." Name blacked out.

Number of cards in apparent denial of Curtis' story.

Interesting ~~that~~ that with all the cards devoted to Raymond Curtis those negating his stories are filed separately and the refutations are not included with the story. Willey, Chalres C. A 7/25/68 "Owner of houseboat in Vicksburg. Now dead. Curtis called him Willett.

HEADING "ILLINOIS"

Gloria Donnelly A 10/8/68 p. 12 Ray "received onelletter fromCanada" when he stayed at 2731 N. Sheffield, Chicago 4/30-5/17 or 6/17/67 (Date new tenant moved in).

Under Harvey Klingeman this account from Luis, "During employment at restaurant, recognized by an unknown who recognized Ray (sic) and threatened to reveal Ray if Ray did not work for him. Ray was given \$1200 in initial contacts and was ultimately paid \$15,000 but due to receive more." Card appears to be original of one noted earlier.

HEADING "LOS ANGELES" further broken down- first "Dance"

591-5651 National Dance Studio Long Beach. Galt phoned 3 times 12/4/67; 12/15/67; 12/21/67; 5 times 1/9/68. III-113.

III-122 shows contract for dance lessons on 12/14/67 for 50 and "Records show each lesson by number, date, teacher, payments - lessons were from 12/5/67 to 2/12/68" this card does not list dates. Indications are he did not take all 50 lessons. He also stopped a month before he left LA, which would give him time for other trips to other places. Later ref. to same source, III-122, says "Contract was to expire 3/14/68." III-123 shows his phones as 469-6096, 464,1131. Bartending! (Repeated references to Ray's smoking again, including filter tips.)

III-131 says at bartending school 1/19-3/2/69 Mon-Fri. 10-1,2-5. Had dark car. Serrano Apt. III-74 On 4/11/68 someone asked what happened to former occupant 102. Galt #6 - skipped and "Soon after Galt skipped a male and female from 2d floor slipped"-III-64.

III-110,111ff,144-5 record Galt's calls from Pacific T & T 1149 N. Gower. 532-6700 is Aero Space Control Corp. 209/753-23-53 (sic) Angel's Camp Area, Bear Valley Lodge; indication of call to and of check at LA ~~9851~~ Guard. 823-5333 is Jamaica Bay Inn. 478-3683 is Ronald G. McIntire. (He bought their advertised TV.) Number of Elizabeth It Bitt blacked out. (Called 1/15/68-swinger ad?) III-116 says "place ad for husband." Ad issue dated 3/1/68. His call 1/15/68. 3923628 Alan Ross. (He runs tampa camp.) (III-113; XV-146). 437-2941 is Coast Guard, III-113. So is 831-9281, Terminal Island, 114. 477-5071 is Wallace Hq. III-113; 941-3767 is Kirby Vacuum Sales. 1st record III-109.

St. Francis Hotel: Then New Orleans Trip: All the well-known and oft-published names are blacked out, including those that are not earlier in this very section on L.A. XV-31, woman, "...he mentioned friends who lived in Industrial Canal area or in (sic) Chef Mentour Highway.

XV-16 Box delivered to N.O. 3/24/68. Garlie Stein (name blacked out) gave long account of trip from 3 cards cited to III-145. Further apparently Stein XV-7: "Says that the New Orleans contractor mentioned by Ray on Dec. trip had Italian name and worked in area of Industrial Canal. (Black out) told (blacked out (second name fits Stein) that the man lived near mentour (sic) Highway in area of Jackson Barracks.

Note to self: If as I believe the industrial canal is the same as the Inner Harbor Navigation Canal it starts on the Pontchartracon and between Pontchartrain Beach and Lakefront Airport. Chef Mentour is the first road to cross it away from the lakefront, between it and I 10. The canal runs approximate N-S and enters the river about 1 1/2 miles from Esplanade and of Fr. Quarter. On the same side of river and opposite side of canal from city N.O. proper or main part, on Orleans Parish side of line with St. Bernard Parish, is Jackson Barracks, between River and St. Claude Ave., which is main thoroughfare. First settlement in St. B. Parish is Arabi, then Chalmette. I believe Jackson's battle at N.O. at Chalmette. So Jackson Barracks not in area of Chef Mentour but Ray knew N.O. somewhat.

Correspondence-Places-Visited. XV-60 No concern over right to privacy of Patricia Anderson who advertised for a "swinger." XV-63 she received Galt's letter under her maiden name Schubert, considered it "obscene." She "never submitted her name to paper" and never saw "alt. No concern privacy her husband Lee T. Also XV-59-60
Freeman, Dr. Mark O., L.A. 2 cards cited to XV-129. Summary of his opinion of Ray and Ray's visits.

Schubert, Patricia, XV -61,62,63 first "local swinger, then "maiden name Patricia Anderson. Privacy? This listing follows concern for privacy of "Schindler, Gordon W. ..." "Sell pornographic literature..."

File Order: Locksmith School: LA-Misc: Much silly and unnecessary markings, or well-known items like the Katoomba-by story, the Stein story, etc. Heavy on Stein. A long summary at III-158 says again "Galt mentioned the names of streets and places in New Orleans." Here his "engineering or contracting firm" contact is given as "in Chalmette (sic) suburb; mentioned names "Jackson Barracks." XV-5 refers to description of place near Houston from pay phone of which Ray made 12/16/67 call. XV-10 "Identified polaroid photo of Galt in chair, but could not identify surroundings." V-31 One call from Provincial pool-side phone to LA 534-2929. 12/16/67. Lockside phone 1292-8882. Then long series card of "Mexico. Most of these illegible. End of notebook originally 5.

Atlanta Cleaners:

XV-49 Mrs. Estelle Peters says that on 4/1/68 Galt left 4 undershirts, 3 undershorts, 1 pair socks, 1 washcloth, 2 coats, 1 trousers, 1 tie. He left this shortly before 10 a.m. (picked up by some man between 9am and 10 am (possibly closer to 9), on April 5, 1968."

Atlanta-Misc: B'ham-Hill; B'ham-Dance; B'ham-Deposit box; B'ham-Cleaners; B'ham-Misc. a 8/29/68, Robert M. Shelton "in contact with "ans...discussed looking at jury list in forthcoming trial, to be furnished by Bureau."

Is this the FBI interfering with privacy of counsel?

Atlanta: Ben Chambers; Atlanta: first ace: service trace: Rebel Motel: end my notebook 6 York Arms: Mar-42: 1/2 3 Main:

Anschutz: I-20 4/4/68: "Shot had been fired from nearby, but Anschutz not sure where. After man had run down hall Stevens (sic) came out of his room." Compare this with Stephens extradition affidavit. Note also that it is to Anschutz that the police said to get away from window. He went into bathroom. No report of smelling anything. Not here. VI-6 he could not identify running man and he did not Ray pix of 1955, 1960, 1966. Beside Brewer: I-35- it appears that someone has to be told 4/5/68 "that a man was killed." I-37 name obviously the FBI's spelling of Stephens, Stevens, blacked out in "rank Brewer's I-37 statement" says (blacked out) was passed out in hotel room drunk and saw nothing." (Some of these characters had been asleep, were awakened and went right back to sleep. Anschutz went back to watching TV.)

I-165 under RB-Mem. long name blacked out, "Took photos of rooming house and environs." On drunk, see also I-18. I-37, "Harsley, aged 31," "...Claimed to have seen three men, two of who (sic) he met running down hall - one with Yankee accent, the other looking like an Indian." I-163 name blacked out, "Took 13 photos of interior and exterior scenes of rooming house; interior 5-b; hallway, rear stairs, rear bathroom, etc. 4/4/68. Stephens, VI-11 "shown photo of Galt- K no I.D." Then this ref to extradition affidavit: identifies profile photo of Ray (Esp. nose and chin) as man he saw that afternoon.

"Map of front view of S. Main (FBI)" I-5 "A composite photographic front view of the east side of 410-424 S. Main St." More drunk I-17, I-34.

Lorraine Motel: I-30, Baker, R.M. (Sheriff's Office) "Ran up stairs to King's body." Could he be man in plain clothes in Louw's pix?

V-I (Blacked out name, as next) "checked out 5:45 p.m. 4/4 saw nothing." with I-45 it is "at motel 4/4. Left 5:45 p.m." These entries after Bailey and before Bernard, Lee. Same for VI-38, after Ben Branch. This one followed by Debbie. Was it Cabbage?

I-58 interview SA (blacked out) with Andy Young.
Dyfour, W.A. Sheriff's office, "ran upstairs to King's body."

I-164 Developed prints of (blacked out) photos."
I-165 "Blacked out, long," "Took photos of body of King and environs." (before Eskridge and after Dufour.) Not Louw or Galt's Colfind.)

I-50 if Eskridge was "facing 'ing" and "heard sound to his right ear" he did not then say the shot came from the floogouse because his right ear was toward firehouse and lot. And the FBI knew it. This time they did not mask FBI agent's name: Hester.

I-43 and 46 both on Ester, Clara, "Arrived at Motel 5:55 p.m. 4/4 in white pontiac temper- student at Loyoyne College. Lives (rest blacked out)." And "Climbed up blacked-out standing next to McCullough who was tending Kings (sic) wounds." She came in McC's car. After Ester and before Hastings, "VI-48 At Motel 4/4. Left 5:45 p.m."

I-53, 46, Mary Hunt, similar entries to those on Clara Ester.

I-90 has Charles Stone and Loenneke and "Richmond at firehouse."

I-43 90, King, Foreman Bn., "In firehouse-Saw, ing shot." With Loenneke I-91

Immediately after Shaver and before Stone another blacked-out name "at motel 4/4. Left 5:45 pm." VI-45.

VI-31 is list of those registered 4/3 or 4/4, from Walter Bailey.

VI-41 Louw's pix.

At one point 18 different cards on pix scene لازaine only despite Wiseman affidavit to contrary. Some published still originally and still refused by FBI.

Main Street: VI-49 4/5 arrest on suspicion from Jim's Grill-released, so evidence. VI-50, blacked-out name saw white Mustang, 1967 in front of Jones's Cadillac. Similar Kenneth Foster, VI-54, who walked between white Mustang, Cadillac at 5:05.

VI-58- white mustang turned from south main into Vance, and passed in it (black-out name)

VI-64- walking on S. Main in front of Jim's Grill "approx 6:00 pm." No report of seeing anybody. Name blacked out.

Hurley, Charles, I-103 4/4/68 at 4:45 when he was parked south of Vance; he saw white Mustang with car in it. Hurley said he parked behind it. "Had Arkansas plate with number beginning with 'A' letters 'A'..." as in Alabama? Which had the same color plates that year as Arkansas. I-104 Peggy Hurley saw her husband had parked behind white Mustang. Jowers cards give-away on deliberateness of framing on position of Mustang, etc: I-111 "Cadillac parked in front of entrance to Jim's Grill late afternoon of 4/4." I-113, "Cadillac outside Jim's Grill 4/4." There are eight Jowers cards, all but third exceedingly brief. After third VI-50 "had Cadillac parked in front of Jim's Grill 4/4." Then this key one, "VI-54 Cadillac north of hydrant behind Mustang." VI-57 Cadillac parked north of hydrant by grill." VI-59 "white Cadillac parked in front of grill." VI-62 "Walker saw his Cadillac parked north of hydrant by entrance to grill." Name not further identified. Jowers with N Fa or Jim. The 3rd is VI-49 "Arrived at grill, approx 5:55 pm 4/4/68, and parked behind white Mustang. Mustang might have been from Mississippi...." while this does place him and the Mustang there at the time he told us it did. The details I am sure he told the FBI, the names of whose agents are masked, details that are supported by others and establish credibility. Besides, on this there is no card of the above "Walker" and none of Jim McGraw or his cab company and its manifest.

I-107, name masked, from Seabrook Wallpaper Co., language of card leaves it unclear but this person could have seen the package before Shornley was there.

VI-61 name blacked-out "left Jim's Grill between 5:15 and 5:30 pm 4/4/68. ... 1966 of white Mustang with dark interior." was waiting for friend to come. This is one who saw white Mustang turn from S. Main into Vance so fits with VI-68 above.

VI-54 name blacked-out, "Lincoln continental parked in front of Mustang." I-111 is one of several that have "white Fairlane Ford parked south of Jim's Grill entrance." This one is around 5:30-6:00 pm 4/4." VI-50 blacked-out name may be of owner, "had white Fairlane Ford parked at (sic) Jim's Grill 4/4."

VI-53, which has two names masked and eliminates time, reads, "parked car outside - heard by --- to say Mustang took his place." VI-54, 57 similar. That an entirely different car than the Mustang was "parked south of fire hydrant" is what VI-59 says. Then blacked-out name VI-62 says "Entered Jim's Grill approx 5:30, 4/4/68. Recalls that 1966 white Mustang he wrote was parked in space he usually uses..." After Wensler and before Wright, blacked-out name VI-52 "Walked in front of white Mustang approx 5:05 pm, 4/4/68, to enter Jim's Grill. Mustang parked in front of white Cadillac... entered restaurant, he remarked that Mustang had taken his parking place."

I-94 Ptl. Barney Wright, taking rest in firehouse lounge, heard window rattle. He and Ptl Douglas ran back to their squad car and "put out radio broadcast of shooting." then ~~Wright~~ "drove" it says here "onto Main, turned south circling (sic) fire station, drove into Mulberry and in front of motel, then down Mulberry to Huling, went west on Huling, and around to Main. Parked car." Does not say or even indicate where, nor would the uninformed reading this have the slightest notion that all it says is that they did not quite circle once city block. It does go farther and report that when at some unspecified point they "Took positions on Main outside car," and do not recall seeing Dollahite or other officers." (No. ref. to others, like sheriffs or escaping gunmen). There is another and typically informative card on "WRIGHT, MPD." of I-50 it says, in toto, "In Tactical Squad # 10."

If it happened as Wright says he was in his car in less than a minute. He thus was on the street before anyone could have come out of the firehouse after making any kind of package, with a clear view both ways as the car left and of any car. Now from the official account Ray's car was near the firehouse, as near as parking permitted. He had to have come out of the firehouse with the bundle after Wright and Douglas left in their car. The firehouse is at the corner, so all the business about driving onto Main is a means of misleading those not knowing the local geography. Depending on where his car was parked it had to be on Main the unnamed street, ~~Utler~~, less than the width of the firehouse. The block to Mulberry is short. This account does not indicate any slowing down on Mulberry and in including that the other officers ran there eliminates any reason for any slowing down. Or, in practically no time this squad car with two officers looking for anything at all unusual had turned the next corner and were in full view of Main before they got there and then had a better view when they "took positions" on it. In short, they saw nothing, leaving only one real possibility what there was to see transpired before they could have seen anything. This eliminates the official account. They would have had to see the car at least if it had not gone earlier. The alleged direction of the alleged Ray car was pointing north, or it would have had to pass Huling.

This is all on "Main Street." Next is "Canipe's." 8 Canipe cards after 2 of Edwin Bodenheimer, which has Canipe away all day and not returning until about 5:20 p.m. Canipe himself says his store was closed until about 5 p.m.

First card has Canipe hearing thud and seeking package and then hesitating for an unspecified time before going "to sidewalk, looking in both directions." It then has him saying what he denied, that after this lapse of time, "saw a white, small car, possibly a compact, pull from curb in east side of Main Street just south of store." Of course this also is hardly an account of screeching tires or any hasty takeoff. But he denies seeing any car or telling anyone that he did. Moreover, were this true, it is still exculpatory because it provides more than enough time for anyone to escape unseen.

2d card, "Locked north, saw Deputy approaching with pistol drawn, immediately went back into store. After a number of officers arrived, their attention drawn to bundle." It took "a number" to ~~Wright~~ "draw" attention to a bundle with a rifle sticking out after an assassination? This is designed to get around Ghormley, as is eliminating the name of "Deputy," Dollahite, who has to have been much later than Ghormley. Ghormley to here is not mentioned.

At I-70 it is "In record store 4/4 around 5:30 pm-Heard noise - all went to look at bundle by door." This does not even relate it to shot or time of shot. At I-75 only "Pointed to bundle to show officers." (On all Canipe cards only 1 SA named and it is blacked out. One on Bodenheimer, also blacked out, as with Finley and Graham and with the name of the police officer who was with the SA(s). All masked not for privacy but to prevent checking and charging.

I-81 is particularly provocative because it is pointless except in bringing the entirely unidentified Ghormley in, then without reference to time: "Told Ghormley of bundle dropped outside business."

Now with all of this what the FBI certainly has to have asked is missing, like where did Canipe park his own car when he got there and what did he see of other cars and their locations. Did he park in front? Legally? Blocking any other car? etc. Nothing.

I-71 is both Bernell Finley and Julius L. Raham, I-75 Graham only, both dated 4/4/68. Finley there about a half hour when he "heard ~~the~~ shot, said nothing." Who can believe it? Then about a minute later he "heard a noise" and "saw man walking on sidewalk." "easier to believe than "sk walking on water." But were on sidewalk? Not even direction other than away which it also does not say? What did the first deputy do? "walked past" without stopping. Here is the best part, the shot having been fired, the package dropped, then some hesitation about going to the package and then the deputy just as naturally as in Perry soon walking past the package: "Saw Deputy again, the heard "screech" of tires and saw white Mustang speeding north on Main, past store." If he saw the car going straight, not pulling from curb or at that angle, it came from elsewhere - if he saw a car. The point here is that in all details the account attributed to him is impossible, not

Naturally he and Raham, both there about a half hour, report making no purchases. The time Graham id said to have seen a man is not even indicated. It is related only to his arrival at 5:30. He also has the Deputy going past the first time and then returning with other officers, an obvious impossibility. His account of the screeching tires is "Before Deputy ran by." He has a white rambled blockin view of Mustang. There are other reports of a rambler, but if the tires screeched and the view was blocked if he saw anything what could he have seen?

Names masked heavily from here. First six card of one witness and all police and FBI. Then what has to be Zachary and is essential to any chain of possession, the one who "Collected items left outside the Amusement Co. 4/4.", I-101

VII-2-4 strangely headed under "Amusement Co." a blacked-out SA "Contacted motels and Service Stations in Northern Mississippi for knowledge of "alt..."

I-163 refers to several 4/4/68 pictures of Ganipe's and bundle, name of photographer blacked out.

The following cards report either no checking by police or faking of evidence because according to them the clip was in the rifle and the empty shell was chambered, Jensen allegedly removing both, one is to infer for first time.

According to card on #19, I-146, "First Section of 4/4/68 edition of Commercial Appeal newspaper. (In suitcase)" What was time not taken for in preparing the ~~hasty~~ flight-even putting newspaper inside suitcase? I believe this also is false. Same source, different case has binocular case there. Why not? Everything else was, like the binocular, hammer, pliers, Bushnell carton, the York Arms receipt and empty bag. All sorts of junk and no clothes other than one cloth belt and 1 pair of socks. There also was a towel. These many cards are followed by two on clothing about which there is no info on source, dated 2 days later: one pair shorts, waistband 23 1/2 in, certainly not Ray's, and what might be larger than his size in a Jockey T-shirt, 42044 with the "lower portion... cut out." No other clothes. And this is all that was left by a fleeing man who had checked into a rooming house? No FBI questions?

Laundry ~~card~~ traces: Smirked only but one fascinates: III-30, under Laundry Markes and Amusement Co., Lucy Pamela, earlier identified as manager of Bone Service Laundry: "Shown color photo of shorts and T-shirt found at Ganipe Amusement Co. Identified a former employee to whom they might have belonged."

If one might find it mildly interesting that this woman was familiar with the underwear of a former employee, man's underwear, what a man, 25" waist and 44" chest! Naturally no questions about what ~~ay~~ was doing carrying around underwear he could not wear because it was too small or was incomplete.

969 When we get to Jay Wallis Vernon, former owner of this laundry on whom several card, At III-30 he "had friend named Jim with undershorts like those found in suitcase. "last seen 3/68." What is ~~ay~~ doing with "in's shorts?"

Eather Nieto makes positive identification "as being marked by their machine between 3/4-5/18/68." Similarly at III-32 for T-shirt (C70)

End my notebook 7

No point in an extra list. It includes the clothing, windowsill, material found outside Ganipes and in the rooming house, probably the fatal slug although it is not listed and unspecified "Developed prints of (blacked out) photographs" at I-164. (This does tend to confirm what I told Wiseman about withheld Memphis police pix and the form in which given to the FBI, developed prints. WHAT THIS MEANS IS THAT THERE NEVER WAS ANY SEARCH FOR ANY OTHER POSSIBLE KILLER and that to overcome the deficiencies in the evidence essential evidence is omitted. Example is the autopsy report and film.

Francisco also at I-149, I-180, I-181, VI-74.
VI-71- Dr. Ted Galyon "Observed wounds" in emergency ~~xxxx~~ room, #1
- Toronto: Robert Mc Doulton (sic) self-identified fat man "who delivered envelope to Ray"
B. LHM p.3
- Lisbon: No indication of where.
- London: A 7/26/68 p. 5 Officer (name masked) reports 6/17 conversation with Ray, another masked quotes Ray as saying 7/5 he stayed at three hotels in London. Some of first obviously impossible.
Frederick J. Schwartz is lawyer who spoke to Scotland Yard about Ray case, 2 cards cited to B LHM 6/14/68 p. 2, 6/15/68 p. 2.
Qc389 is "Photo of SR note "Place al . . ." and "Put all. . ." written on brown paper bag."
- London-Arrest: After Butler and before Human black-out name took notes "during interrogation of Ray in Cannon Row..." at B 6/21/68, apparently Thompson Report.
Article on silencers ref B 7 6/21/68.
- Misc. Ray: begins with much on Paul Bridgeman.
B LHM 5/29/68 "X-rays of Ray and body found in Pennsylvania have no similarity."
(When and where did they X-ray Ray? Or get X-rays, to which to now I have seen no reference?)(Name at top card blacked out.) If dental, see B LHM 5/27/68. Or XIII-103, VA.
- Family and Background:
AII-24: "In 2/36 (third grade) diagnosed for spontaneous epilepsy leaving no memory of attack." (No military records here.)
- Prison: K-123 12/29/66 psychiatrist letter to Mo. Parole Board "Reflects Ray has headaches, fixations, is an obsessive compulsive personality. Not ready for parole."
K-120- took Spanish course at Leavenworth.
A 10/8/68 (5-3/6-24-68) Klingeman's "received calls from his 'brother' during last week of employment." P. 12, got one letter from Canada.
- Mem '67: Mexico: L.A.: III:111- on 10 days 11/29/67 to 1/26/68 made 21 calls from Serrano. Numbers not listed on card. New Orleans: XV-210 Blacked-out name just fits Stein and has one extra fact not in earlier cards: "Was to meet man with Italian name in (sic) Canal St., N.O." The Canal St. bar and the Italian name are not new but the combo is. III-158 "Stated name loudly in New Orleans motel." (Other than N.O. folks. immediately.)

Then Atlanta: B'ham'68: Memphis: First item New Rebel registration. Registered at 7:15 p.m. 4/3 -I-134. VI-7 Bessie Brewer "would not recognize" the man and "Could not identify photos of Ray." VI-8 "not identified by (blacked out). VI-6 "Wm. Charles Anschutz who could not identify" from photos. Atlanta (?): Lisbon: London: B LHM 7/1/68 p. 1-"Identified through fingerprints as having robbed a Fulham bank 6/4/68 of \$239. Right Thumb print matched." This is anything but the full story and the omissions cannot be accidental. He was not alone. The FBI feared "conspiracy." Niac. not much in this stuff toward the end.

No real interest in anyone other than Galt/Ray. No real investigation of the crime reflected here.
