

NATIONAL CITIZENS' CONGRESS

INCA • 1414 N.B.C. Bldg. • New Orleans, La. • 70112

Citizen!

For the third time in 200 years, our nation is into a revolution. Now is the time for citizens to come together and cool the chaos with creative alternatives --- political, social, economic and military.

The Information Council of the Americas (INCA) will convene the "National Citizens Congress" at Haverford College, Philadelphia, Pennsylvania, from June 14-19th to seek those creative alternatives through discussion and action. If you care about your country, quit complaining. FORWARD TO PHILLY!

Liberal intellectuals like Max Lerner will exchange ideas with Conservative theorists like Dr. Stefan Possony. Moderate attorney Luis Kutner will challenge radical attorney William Kunstler. Humanitarians like Dr. Alton Ochsner will join hands with financiers like Patrick Frawley and communicators like Fulton Lewis to synthesize new options for America.

INCA is a 10 year old, tax-exempt, non-profit, educational organization of private citizens led by Dr. Alton Ochsner, and has sponsored two widely acclaimed student conferences at Centenary and Lake Forest Colleges.

This year at Haverford College, activists Libertarians, experts, SQUARES, students, traditionalists, servicemen, celebrities, and ordinary citizens, will spend a week of intensive effort, combining education and stimulating involvement right at the site of the first American Revolution.

If you have an idea that has been ignored, a talent that has been overlooked, an honorable ambition that has been thwarted, then FORWARD TO PHILLY!

If you cannot come in person, send a check today so some deserving student, or serviceman or citizen delegate can come. Bus transportation averages about \$75 to Philly and back. Room and board costs \$75 per delegate for the week. Fees and educational services run another \$100. Thus, one delegate "costs" \$250 total. We are booking every delegate possible, so don't worry if your check arrives during the Congress; it will cover any deficit. Surplus will be used for the Second Session (see below).

This INCA Citizens Congress can be the first act of the biggest scene since 1776, if we get cracking. Otherwise, we can expect more riots, strikes, assassinations, war, terror, poverty and death as the Revolution turns toward tyranny.

And, if the emergency appeal to the First Session seems short notice (the crisis will continue) send a check now and start preparing to attend the Second Session; plans will be finalized in Philly.

Then, when someone starts whining about all the stupidity and hypocrisy that has gone down since that first great revolutionary experiment two centuries ago, you can say now is the time to Strike Back!....or Shut Up!

Remember, we need you, or your check, if you can't come. FORWARD TO PHILLY with your...

Thumbs Up!

ED BUTLER
