Masteman "anse Fort; IteK Anelysis 11/27/69 HW
People were supposed to cors here this evoning do, after supper, ponding the ir arrival, read the astemen opus and the Itel enslysia. In my opinion Iastermen is nothingnese and I would gnoylze the work in a vey to urge you to greatest calition in using snything that is his or his opinion (as distinguished from mhat indepencent material te might iocetel. His ignorance is brilliant, considering thet he seys he has reed. He is a sycophant and a aeeker of stetus, in return for nothing but ehallow rephresings. Itok ie fantestic. Nothing i have seen indicates enyons hes understood this.

Bricfly, for I do not wat to take the time for a complete onplysis ( I hove morke onxthe copy sent me so I can pick this up again), much of what they say thet ongered seople 11 ve pey bercue does not engor or diseppoint me because I had reschef similar concluefone esplier and hod commenteated then to Ray in the early ifil of lgee. And they 1.0 , evasively, mhich - Like less then openly, but thes no longar engere me. Father, I find the lying important becauge it ilegs the vital. Thei lyins is important to ae because it confimes viet I have aiready published, at this point of no eveciel acrart.

Dut, wher they do not lie is whore I find excitad interest. If you have road this wthout understending they heve dectmoyed the entire iarren 'eport you have not understood 1 it.

I have the text of no otner Itek analysis. I want is read them all carefully bofore anting any further comont or any more spscific comant and I also mant to restroin any use of whet have founc for a special occasions I can anticipate. I prosume you both agere this one. If not, of ther can borrok. If ofthor of you has other(a), I'd aporociate. No rush and nat from both!

It is too late to rosume work on CoUP ada, so nor I'll sac if I cen go
 has also returuad to you what you losnea me and loaned him with thet, for him to copy. Separately I returned erarytiling elss except the honroo bosk.

Progrean renort: I've read and corrected about $10 \%$ cocp add.
