graphic laboratories has demolished a widely circulated theory that a second gunman was  
involved in the Kennedy assassination. The Ittek Corporation revealed that their study of  
this film disproves the existence of a rifleman on grassy knoll (upper left-both pix). UPI

TO GO WITH UPI DISPATCH BY JACK V. FOX AND MAURICE SCHONFELD  
WPL1555703-5/19/67-LEXINGTON, MASS.: The Itek Corporation has revealed that a months-long s  
of an amateur movie of the assassination of President John F. Kennedy had disproved the e  
ence of a rifleman pointing his weapon at the Kennedy car from the grassy knoll (show  
here) in Dallas on Nov. 22, 1963. The study has demolished a widely circulated theory that  
second gunman was involved in the assassination.
