Dear Lou,
Hope your wife is coning slong well. Jin, too.
Although 1 have been apending most of my time writing, I have made major advences in two areas: Cswald as a federal agent and a possible link between Irennan and Sirhan. Weither is conc lusive, botil promising.

In connection with tho $\mathcal{Z}$ ormer, would $y$ ou plesse roturn my cerd file on Uawald's notebook? I sent it to Jim a long time ago. If he wonts it back, iet me know and as sonn as it ias essved my imoli te purposes, Ifput it in tae meil again.

In conrection with the latter, I need nothing more for that particular book. It ias rready too long and I ain atill aduing. I will hive to cut it. This does not mesn thet importent menerial cannot be eded. However, you will fecall. I had mede a request of the west coset and tiat yon told mo you had twice been asked about it by phone snd twice said to send this stuff to me. There hes been nothing but silence. I have gotten nothing.

I have no percongl feeling about this. ls you kno:, I have done my own work and will continue to. I do suggest that this is an unheainthy attitude. If I can guess its oriein I cannot justify it.

The Weshington people offered me more materiel on Wheat. It has been a month to six meeks since I thanked them end accepted. I've hesrd nothing since. So, there is nothine about neet in the book. It would help rounc thinge out. I didn $t$ write it weitine for more compl=te material. Now, if I ever gat it, I will not use it if only because I will not have time. I could have sent it for use in England and France if I'd had it.

I don't think it is necessary to spell it out any more. Co- operation means more than one way.

Whanever L have carried the two iteans in the secoud paragreph to a conclusion or as far £xki os I think I'll be able to, I'll let you know the stories. I really think I gm in pay dirt on the flrst.

When you get a chance to call me on a clear phone not Wednesday during the dey- I'll. esll you beck within 10-15 minutes. There is something I think you should knoy as soon as possible, about down there.

You may recall Geraci was to have gotten some things to me. Now, obviously, he wil . If there is anything suspicious about his death, if only intengibly, ple set me knownthe deteils, for I have other things bearine on what he might have boen able to do for us, what he knew, what he did. Some relate to your Shaw case. Best regards,
