Dear Lou,

The N.O. papers with excerpts from some of the testimony Q and As has just arrived. Some of it is interesting to me. I would appreciate copies of the Cawald leaflets introduced into evidence, with the stampted legend being of most interest. If one was the "Crime Against Cube" pamphlet, only that part, the back page. A copy to Paul Hoch, 2537 Regent St, #202, Berkeley, Calif. 94704 would help.

If you can Merox the picture on which Steele identified the other men helping, I am sure I have a copy of the original.

Morgan's testimony as it relates to his having spoken to the FBI is of importance to me as it relates to the LV and to Clark. I'd ampreciate a copy of thise pages, please. I will be writing Alcock about this.

Sincerely,

Herold Weisberg
