

Pls return to my 100n file after noting what may interest you

2/14/70

Dear Lou,

Many thanks for the transcripts. They arrived today. Please also thank whoever wrapped them, for had they not gone to extra trouble to make a good package, all would have been wasted, the package was that badly mangled in the mails. However, because it was well prepared, all are okay. Would it have been a shame if all that work had been wasted?

Because you may get more, let me send you this list of what you sent, so you can always consult it to see what I have. I'll also send the list to others so they know what is available and can be borrowed.

We had Frazier and Finck and have already made these transcripts available to others. This testimony has been thoroughly analyzed, if you ever have need for such analysis.
