## Dear Lou,

Some time ago you sentx me a copy of Sharon Kuhn's 17-pese transeript of a phone conversation on the $\mathbb{H}_{\text {inytemen, nresumesbly with Boxley on }}$ one end. Recently I heve been working with a police department (not local) interested in and apecializing on extremists. I made tais aveileble to them on a confidential basis ond with the understanding none of it could be supported. They found it interesting and would eppreciste onything elso like it they con get. I presume there is much more of this. If you cen provide it, it may do some good, becsuse these kinds of "people" are rather active not far from here. They are sophisticated enough to threaten me at 2:30 a.m. by playing the soundtrack of "Shane", which is pretty polished (and led to my comnection with these pollce, who are good follows and thoroughly professionsld.

In the not distent peat I've phoned thoo twice, each time for more then one reason. But my me in purpose was to let him know thet one of the megn in whom you have in the pest bean interasted was an FBI informant, numbered and oll of thet. I am not sugegsting he has a direct reletionship with your pending csses, but I did think you might want to know.

There are pany developments I think would blow minds down there but there is, for tuem, no safe means of commication. I'd expected, from the way he spoke, that Mooz mould have been here by now.

I have also been looking forward to the IU materiels. Were it not thet I have not been well ani am trying to rebuild my aging muscles and joints I'd be, In my own system of priorities, pest the point where I could carry this further for you. I wikl, of course, heve my own future interests. I do hope to resume rather important writing I've laid aside, and when I do, I will be unwilling to interrupt it. I have for it what is much more significant than anything yet, whot the Comission itself was denied. No fooling.

Jasper probably will not vemember me by name, but asis $\mathrm{J}_{\text {im }}$ to tell him the man who introduced aim to tape recorders in 1967 hopes he is getting along fine. in fact, I hope you sll are.
