Dear "ou,

Do have have a good way of getting a good translation from the French, by one you can trust? If not, please let me know right away. I am getting a copy of a French interview with Pershing in which he is quoted as saying Jim is incorruptible, etc., and at the very time he is quoted by Justice as saying that he, personally, was paying Jim off. I have excerpts. I have asked my source for the original, of which I'll get a xerox. It should be here any day. There is a local college at which I can get it done or I have French friends in DC I can get to do it, unless you prefer to get it done there, as, for example, if it turns out to be of use and you want to put the translator on the stand as a witness.

It might not be impossible to get the writer as a witness, although he is in France, apparently. When I get the whole thing I'll check for you to see if he is US based.

I presume you will have seen the Anderson column that is in today's Washington Post. It says the administration is using the Justice Department for political purposes against Democrats and adds much to what I told you about Sharp and the Texas deal. Boy, if Bailey wants to put Kleindienst on the stand on this, can I load him with double-0 buck for that scum! He is credited with being the brains. And this would provide a means of putting assassination evidence of a kind you never dreamed of into the record and getting that into the record and before the jury. I have it and would give it to you or testify to it and produce it. It is quite something. Somebody gave Moo a glimmer of what I have, but he has no more than a glimmer. Here I have DJ, aside from other things, destroying and faking evidence--and when a President is killed. Kleindienst is also the guy who had the public record of the public trial of an American confiscated from a complacent court and then denied in writing to me when I invoked § U.S.C. 552 that he had it. He had, as it turned out two copies besides this confiscated one. It will make quite a scandal. Which reminds me, before this case is over, Bailey will regret that he didn't respond to my inquiries on the King case, for that also would be him for this in a way he can't imagine. You have never seen on Justice and the FBI what I now have. And you know that when I say I have something, I mean in my possession, documents and pictures, not something somebody dreamed up and told me about.

If you can get up and can pick your time, if you can't make it before the 15th, make it for after the end of that week. I have somebody important coming here the 15th and I have medical and dental appointments in Washington for the 17th.

If you missed the Anderson column in the States, I have filed it here.

Best,
