Black Mountain Engineers  
Post Office Box 1  
Corinth, Vermont

June 29 - 1 copy WHITEWASH + postage

\$5.05

This book was sent to you in good faith. I have twice sent you a reminder. Since the book has not been returned, nor have you acknowledged receipt of either letter of June 29 or of the bills, I am at a loss to understand why the bill has not been paid. Please drop a check in the mail now before you forget.

Mr. T.R. Jackson  
Black Mountain Engineers  
Corinth, Vt.

Dear Mr. Jackson,

Thank you for your kind card of the 26th. Most people, including those kind enough to telegraph the studio, expressed similar sentiments. Those three characters were so disgusted they didn't even say goodby. As you noticed, perhaps, they even cut the program early. I'm satisfied. Fortunately, the mixture of ignorance and arrogance that seems to characterize people of this sort works against them.

I do not know if the book is yet available in your area. Bookstores and libraries can, of course, obtain them from me at normal trade arrangements. They are also available to stores through A&A Distributors, Near Rd., Holbrook, Mass. 02343.

To answer your questions: I was not paid - not even my transportation, although they did have coffee and sandwiches. Mr. Laski passed his cigars out to the others, but not to me!

I have also heard that the Chief Justice went on accepting the assignment. However, his statement that some of the facts might not be revealed publicly in our lifetime related to the securing of some of the files for 75 years and was made on a different and also unfortunate occasion.

Returning to your question again, I had to sign several releases and a statement that there was no payola, as, of course, there wasn't. They merely phoned me the previous Monday and I accepted, as also happened yesterday with WCAU in Phila., Pa., where I'm to appear for four hours beginning 10 p.m. 7/20.

The price of the book is \$4.95.

Sincerely yours,

Harold Weisberg

dear sir: i heard you orvabc a few nights ago, and am amazed at your ability to retain your temper after such scurrilous attacks. i should ordinarily assume that your book would be open to attack on many grounds, but if those two amateur law-sharks could find nothing better than high-school patriotism and cheap courtroom tactics to use against you, you must have something after all. i should ordinarily wait until such a book turned up in the library, but as yours may not do so because of its private publication, could you advise the price? i should also be interested to learn whether an author or publisher pays or gets paid, or neither, to get on that program. incidentally, a telegram referred to 'warren crying' and it seemed to baffle you as much as the others....there was a report that he was weeping when he emerged from the white house and said:"you will never get the facts in yr lifetime
