Dear Harold,

I was so pleased to receive your letter! You and Sil have had quite a year and we have been so worried about both of you and have kept you in our prayers.

I am so angry that someone entered your home, and breaking your beloved Almas was terrible. I do hope it can be repaired so you can continue your wish on your "friend".

It sounds like you are angry the doctor once again. I'm not surprised - you're an amazing man! But do try to behave yourself and not overdo.

I hope you have found Sil in the help so that Sil can come home. It must have been very difficult to be apart. Sil's a special lady. I'm sorry she has gone through so much and pray she has been getting stronger. I only wish I knew someone in Maryland I could recommend to you.

I found this rainbow and thought you could use it.

→ We are all fine here. Spoon is growing and changing everyday. He is very proud of the picture we took of him at your typewriter last Fall. He has a copy hanging in his room and tells everyone all about you and all the books you've written or that typewriter! (And about the vibrator too!) We are heading to northern California on vacation next week. That's where all of our relatives live. This summer is just going by too fast. Much love and prayers to both you & Sil, and thanks again for the letter!

Best,
Bob Gopherman
