Dear Mr. Weisberg,

Though I was aware of the presence of your books I knew of no way to obtain it; until your sporting appearance on the 'Burdor Show'. Now I wish to order one, and if possible one of the first editions.

En Passant may I utilize this opportunity to praise firstly your scholarship and your capable presentation which so dramatically manifested itself on that occasion. The honor and validity of your knowledge and self obliterated the potent assault of they who made it their business to impugn you and your works. Which you, armed but with just truth and insuppressible courage, reduced to deserved impotence their abusive cunning and belligerent falsifications.

Certainly a scholar and defender of the truth and the nation as you manifestly are shall not forever go un-recognized and un-remembered. Believe me when I tell you I shall do all within my scope to propagate this deserving work and your merits.

Respectfully,  
Mrs. Thomas Jenkins
