RE: Crenshaw, et al. v. Sutherland, et al.

Dear Harold,

I can't begin to tell you how much I have appreciated your informative and insightful letters. Your latest (written 5-29) came today. As with the others, I immediately sent a copy to our attorney, Brad Kizzia. He, I understand, has written both you, and your agent Richard Gallen, concerning our possible viewing of the manuscript Never Again!. From your description, it would definitely be an invaluable tool in our preparation for future depositions and eventual trial.

The three of us, Dr. Crenshaw, Brad, and I, had a working lunch yesterday. We all agreed that your superior knowledge of the medical evidence, as well as investigative skills, can be a tremendous source of information and advice as we continue in discovery and approach trial. Our only wish was that your health was such that you could come to Texas for the trial. Is there any chance at all of this? I can't help but believe, as you do, that this is the chance of a lifetime to help set some of the record straight regarding this area of the JFK investigation; and, I think I know how much you would delight in being present for it.

From your letters, I can imagine how difficult it is for you to continue writing us. However, I hope, as you have time and feel up to it, that you will continue to give us your advice and suggestions concerning any area of the litigation you see as useful and beneficial. I, in turn, will try to keep you posted as to where we are in the case; and, will definitely keep you informed as to future dates of depositions from some of the major players in this tussle.

I wish you well my friend, and trust this letter finds you feeling some better.

Yours truly,

J. Gary Shaw
