# JFK Honor Guard

Vol. 1, Issue 3, July-92

## Hi ALL!!

How has everyone been? I haven't heard from some of you... I hope all our HG subscribers are well, happy and possibly busy writing things for HG4!

Thanks to those who have sent material for HG3 & for "stock stuff."

And WELCOME to the HGerS who have subscribed in the past month!

Remember... everyone is encouraged to be part of JFK Honor Guard!

## SOURCES!!

In the interest of bringing you info on where to get JFK-related books, videos, audio tapes, photos, etc., I have written several companies in the last few weeks.

I don't know WHAT I expected, but I certainly didn't expect the Wealth of Info we received!! Besides my being amazed at the amount of items, I am astonished at the KINDS of items available to us!

Having been a LoneLoon JFKer, I never realized what I was missing all this time!

## ARE WE WASTING OUR TIME?

Is the older generation, which may have spent decades studying the assassination, wasting its' time?

Is the younger generation, stimulated to ask questions by "JFK" and television specials, wasting its' time?

Is assassination research a game, a puzzle substitute; fun but ultimately worthless and to be thrown out in the long run?

Should we admit that in the unlikely event of a third investigation it will follow in the mold of the other two, ending up another waste of time and money, resolving little and fooling the public again?

Are we a minority of deluded loons who have been gulled by hypocritical scavengers whose sole purpose is to fatten their bank accounts?

I say "...maybe, and in part." Some writers may not be sincere. Nothing may come of our efforts. There may not develop enough pressure to get the files open and a new investigation going, or to guarantee that it won't be a repeat.

Is it worthwhile to continue when the goals may be in doubt?

I think it is. One thing stands out. If we believe that there was a conspiracy and a cover-up, we owe it to future generations to do our best to expose this crime that strikes at the core of our way of government.

Even if nothing happens in the lifetime of the older generation, they can fight to get as much discovered as they can so the younger generation can pick up where we left off.

If you believe that something heinous occurred in 1963, keep on doing what you can to uncover and correct the conditions that led to it. Then your time will not be wasted.

We received the Dave Emory Archive Cassette Catalog recently! Here's his background: Dave Emory is a California-based political researcher who has shared his research on radio (both live-information/phone-in talk shows and a regular 1/2 hour program) since 1980. Because new listeners wanted to know details of past broadcasts and other listeners weren't able to tape the programs, Mr. Emory made his programs available on cassette. Most offered in the catalog were first broadcast on Foothill College's radio station, KFJC-FM, but he is heard on at least 5 other CA stations.

In addition, program transcripts are being created, and we'll be notified when they are available. Some bibliographies will be available for finding out-of-print books and for helping people conduct their research.

Not counting updates, the 16 pg. catalog has about 90 selections/sets, with an average price of \$9. Prices range from \$3.55 to \$28.40. Cassette sets may have either 60 min. or 90 min. tapes, with 1 to 8 tapes in the various sets. Times listed are approximate.

Also offered is an Iran-Contra video; "No Nazi" buttons; Xeroxed NSAM #s 263 & 273; AND a bumper sticker- "I Love My Country, But Fear My Government"

The catalog is \$3.00 and S/H is \$3.50 PER ORDER (not per tape).

### OSWALD AND RUBY

Over the years, speculation of a possible Oswald-Ruby link have surfaced. Now, a newly de-classified *Office of Naval Intelligence* (ONI-234) memo may shed new light on both men.

A November 27, 1963 memo from Admiral McDonald to Rear Admiral Rufus Taylor states the following: A man named Robert Patterson contacted the FBI concerning work his firm, called Contract Electronics in Dallas did in Jack Ruby's Carousel Club. Patterson said that Ruby and Oswald came into his office and said that they wanted work done on certain microphones at Ruby's strip joint. Ruby, according to the memo, told Oswald to write in their names (Patterson & his co-worker Donald Stuart) in Ruby's guest book.

Paragraph 3 is the most interesting: "The above information certainly raises questions as to Ruby's real motives in killing Oswald. We have all been interested in what seemed to us to be a look of recognition on Oswald's face when he spotted Ruby."

### BOOK OPINION

Jim Moore's CONSPIRACY OF ONE and Anthony Summers' updated CONSPIRACY. The contrast was striking.

Moore's book was not convincing, providing little evidence for his apologist stand. Seemed to be written for people with little foreknowledge.

Summers covered just about all the facets, brought up new facts and speculations, also provided cites so anyone could check him out.

As the "Definitive Book" I found Moore not living up to that definition. Like other "Final" books, it specialized in attacking critics, crediting none with even a modicum of sincerity, and assuming all others have an eye solely on bank accounts.

Arrogance and ego abound. HIS book is the one to believe. HE knows more about the matter than all others, except an unnamed few.

Moore blames the critics for the mistrust of public institutions, ignoring the things these same institutions may have done to earn that mistrust.

I took several pages of notes, but Moore earned MY mistrust by following the basic errors of the WC: selectivity in facts and witnesses, glossing over the unusual police incarceration of LHO, and making it seem as if Craig was Oswald's defense. Yet Moore thinks the WC had acted fairly and equitably and in the best tradition of American justice.

Moore rejects the "fictive" assassin on the knoll, yet admits that there were people up there with phony credentials. Leap of illogic? Why were they there? He terms the Carcano reliable, accurate, and solid, repeating the idea of the WC that it was as good as American weapons.

Though Moore rejected the idea that he was a rubber stamp for the WR, I thought the book to be just that.

Many other things made this book extremely lightweight when compared with the Summers' book.

### THE GRASSY KNOLL GAZETTE

Box 1465  
Manchester, MA 01544  
(508) 526-1521

R.B. Cutler, Editor of the GKG and I, Editor of JFK HG, in our wisdom have seen fit to subscribe to each other's newsletters!! GKG is a bi-monthly publication.

GKG is varied in its content and also has some material for sale. Subscription-\$10 year.

What I find especially interesting about GKG (besides the Editor's reMARKAbly orderly handwriting!!) are the several draftsman-type drawings demonstrating the points made in the text. Concerning Dealey Plaza: one such drawing clarifies the areas from which all shots may have come 11/22/63, and does it in a way even I can see and understand! Another demonstrates angles and degrees of possible shots.

Another full-page drawing details the "geography" of the Embassy Ballroom and Kitchen area where RFK was shot...noting bullet holes in structures and location of witnesses. An annotated map accompanies the text about the last flight of the KA 007.

GKG has many articles! Some from this year are: The Shot to the Head (From the Front); Oliver Fit the Battle of Washington & the Walls Came Tumbling Down; KA 007-X,Y,Z;

ALSO prior GKG issues are available, as well as "Goodnight Mr. Callabash" which sets forth factual solutions to 5 assassinations and one attempted murder. And other print material. Also VERY colorful "question" post cards to send to those campaigning for office this year-- including a note printed on the card to the President asking "Who did it?"

**18-HOUR VIDEO-TAPED HISTORY OF THE JFK ASSASSINATION** These five tapes are from Ted Gandolfo's NYC TV show (from '63), and he captured heirloom-type, original action in real time. The set is offered by his wife Anita for \$50 (can be bought per tape, tho). The price increases when JFK AIC Dallas will have them for sale. While Mrs. Gandolfo's address is noted in GKG, please contact The Grassy Knoll Gazette about these.

I Just HAVE to tell you!

I have listened to "The Assassination of JFK..How it happened and it's effect on the U.S." It's on a tape set from Archives on Audio. These two cassettes are Dave Emory's Lecture #3 from June '91.

Ya know, a person may not be a good speaker & that makes it hard to pay attention to the information. I didn't find that the case with Emory...he speaks well & quickly; clearly moving from issue to issue, & adding important descriptive details & comments.

Included in the lecture were some details I'd never heard before...but Emory cites his sources & I will check into them to learn more. A very good overall view!!
