

4/24/69

Gary,

In the Hepburn and Rose material that I had separated and looked at are some Turner things of no consequence, for they say less than we already know and nothing we didn't. I have the unidentified Brown interview, which I recognize as Bud's (and he got conned), some gibberish of Oct 8, 1967, the clip-ings from the SF Chronicle of May 6 and crap headed "Reporting on Equipment Technology".

I have already commented on some of this nothingness.

There is redundant proof of Turner's continuing dishonesty here, for I just heard from Hal that Turner told him of getting a bullfighter postcard from Madrid, with ~~KISS~~ Nagell's picture, from Wilmington, Del., and not knowing who sent it. Equipment Times is one Greenstine in Wilmington, well know, without doibt, to Turner, as Nagell's friend. Bud has seen him, gotten an awful lot of crap from him, undoubtedly shared it with Turner (I do not want it). Bud think G is loco. In any event, he says he is wrong.

Now here we have Turner getting stuff from Greenstine yet telling Hal, who is supposed to be his friend, he doesn't know Greenstine or anyone in Wilmington who knows Nagell!

Again, we have nothing here but waste and deception.
