

Dear Jim, Willens, Jenner and the attached + CBC and P D Scott 10/16/77

Jenner blabbed much on film and tape yesterday to CBC.

Because he is a Canadian the CBE people used Peter Dale Scott in the interview to which Jenner had agreed in advance. It appears that Scott provoked Jenner and that he unbagged cats about the organization of the work around a lone assassin, things like that, putting it all on Willens.

It was after dinner, a late dinner, and it was late when Brian got through to his Chicago crew because Jenner was three hours late for the appointment. So I did not make copies of the enclosed for them. However, I do not think they have yet left Washington and can be reached through Scott Malone. 4705 N 37, Arlington 22207. Don't know phone of father's name.

I'd like them to have this because while they did not tell me so the obvious next move for them is to let Willens know what they have and see if maybe he'll change his mind and not refuse to be interviewed. And the more they have to give Willens the better he can speak. Up and out, that is.

Also, they are going to give me a transcript. On Jenner at least.

Please phone Scott as soon as you can and let him know you have these. It would be faster for them than mail or I'd mail to Scott. Who also may be staying at their motel with them. I didn't ask how to reach them and thought of these copies for them today.

Best,
