

A shocking eye-opener

TRILOGY OF MURDER by Joachim Joesten

*Just published

*Second, enlarged edition

President John F. Kennedy -- Senator Robert F. Kennedy -- Dr. Martin Luther King

Three of America's most prominent, and most promising, liberal leaders murdered in succession within the span of a few years. BY WHOM?

OSWALD?

SIRHAN?

RAY?

Three lone assassins?

Three crazy misfits?

Three men without faces?

Three monstrous crimes committed without apparent or plausible motive?

THAT'S WHAT YOU'VE BEEN TOLD AND THAT'S WHAT THEY KEEP TELLING YOU!!!

Who's they?

The real assassins, the wire pullers, the ones who benefitted from these crimes:

*Richard Helms of the CIA * J. Edgar Hoover of the FBI * Lyndon B. Johnson * Richard Nixon * the Oil Magnates (Hunt, Murchison) * the Steel Tycoons * the Ocean Grabbers * the Joint Chiefs of Staff * the Vietnam Hawks who prey on women and children (Westmoreland of My Lai, Le May of "bomb 'em back to the Stone Age") * the greediest and most corrupt Big Business Establishment in history * the bloodiest, most ruthless warfare State in the world * the most effective assassination machine ever devised by man * the military-industrial super complex * the people who have the power to get away with murder, any time, any place.

These are the forces that really planned and executed the Dallas coup d'etat, in which America's finest president of the century was slain by means of inescapable crossfire; the ones that killed presidential candidate and potential avenger Robert Kennedy in a cunning ambush at Los Angeles; the ones that eliminated the defender of the blacks, the underprivileged, the peace loving, by a well placed shot at Memphis.

They were able to triumph -- again and again -- because their plots, concocted at or near the top of the power structure, received powerful help from the local police forces. And because their crimes were covered up, in each case, by a cowardly, rotten press which pretends to be free while it is, in fact, no more than a transmission belt for official fakes. Also, because scapegoats are so cheap and expendable!

The whole world has been fooled, repeatedly and successfully, by these criminals. In each of these three assassinations, the cover story prepared by the CIA and the FBI -- even as the real killers were trained and equipped for their deadly assignments -- was swallowed hook, line and sinker by an uncritical public.

(Please turn over)

In each case, the official story of what supposedly happened is an unmitigated sham and fraud, designed to put all the blame on the predestined scapegoat so that the real murderers and their backers could go free.

You, a thinking and concerned person, owe it to yourself to cut through the densest fog of official fabrication and coverup ever spread across the world by the news monopolies. You owe it to yourself to find out, from an untainted and informed source, WHAT REALLY HAPPENED. You owe it to yourself to test the facts against pretenses. You can do it by reading

Cuba, Vietnam, Oil - Three Reasons why President Kennedy Had to Die
A Study of the Historical Background to the Assassination

By JOACHIM JOESTEN

The decision, made early in 1963, in the highest policy-making circles of the Pentagon, the State Department and the CIA, to kill President John F. Kennedy and thereby automatically to put the more compliant and warlike Lyndon B. Johnson into the white house, was based primarily on three considerations.

The CIA was deeply aroused over its Cuban fiasco (Bay of Pigs) which it blamed on Kennedy's hesitation openly to throw US airpower into the battle and it wanted to try again with stronger means - a plan vetoed by the President. Moreover, Kennedy, as is well-known, had vowed to "splinter the CIA in a thousand pieces and scatter it to the winds." It was an excellent idea - but the CIA was quicker on the draw.

At the Pentagon and the State Department, the Vietnam warhawks were all set to turn the limited US involvement of that period - which Kennedy, moreover, was planning to liquidate altogether - into a massive assault on the peoples of Indochina. President Kennedy was an insuperable obstacle to those criminal plans which his successor, LBJ, could be relied upon to carry out to the hilt, as he did. Therefore JFK had to go.

Closely linked to the issue of escalation in Vietnam was the US oil industry's desire to protect its tremendous investments - billions already spent and tens of billions marked for future spending - in offshore oil exploration and prospecting along the coasts of Indochina, as well as in the adjacent seas. There, the potentially most productive underwater oil deposits in the world had been discovered in recent years by US oil companies and their foreign subsidiaries or associates.

This fact of overriding importance, which played a decisive role in the decision to murder the President for the sake of convenience, has been carefully concealed from the American people. Only a handful of insiders are aware of the key role which the oil industry - which is closely linked to the CIA at all levels - has played in all policy decisions concerning Indochina. The world at large, however, has known about it for a long time. Hence most of the startling information the reader will find in the present report concerning the extent of US investments in the offshore resources of the South China Sea and the Gulf of Siam and highlighting the close connection between these oil interests and the Vietnam warhawks has been obtained by the author from sources outside the United States.

In the totally false picture of the motivation for, and execution of, the JFK killing with which officialdom has deluded, and continues to delude the American people and the world, there is no inkling of all this, to be sure. Earnest scholars, however, will be interested to learn the real background of what was in effect the Dallas coup d'état. They will find in the present study plenty of new, exclusive and well-documented information about the most distorted and camouflaged historical event of our time - the assassination of President Kennedy.

"Cuba, Vietnam, Oil - Three Reasons why President Kennedy Had to Die" is mimeographed, not printed, and available only in a limited edition. The Assorted Crimes of Richard M. Nixon

by JOACHIM JOESTEN

A Public Indictment Before the High Court of World Opinion

Second, Revised and Enlarged Edition

=====

Watergate - and how it connects with:

The assassination of President John F. Kennedy

The murder of Senator Robert F. Kennedy

The frameup of Senator Edward F. Kennedy at Chappaquiddick

The expedient dispatch of J. Edgar Hoover

The shooting of Gov. George Wallace

The attempt to frame District Attorney Jim Garrison

Watergate began on Nov. 22, 1963. From the infamous Dallas coup d'etat, in which he participated, to the "White House Horrors" exposed in 1973 by the Senate Watergate Committee, there stretches an unbroken line of assassinations, kidnappings, break-ins, extortions, frameups and other assorted political crimes in all of which Richard Nixon played a leading role or had at least a dirty finger in the pie. It would be absurd, indeed ridiculous, to impeach Nixon solely because of Watergate, the least serious of his countless crimes and let all his other, far more heinous felonies go unpunished. What is a bugging expedition compared to multiple murder? What is the Watergate coverup compared to the coverup of the Kennedy assassination at which Nixon connived at every turn?

For the benefit of those whose responsibility it is to bring to light the whole truth about Watergate, and for the enlightenment of future historians, the present report sets forth in detail the truth about the darkest period in American history. Chapter headings are as follows: (I) A Decade of Infamy; (II) Nixon's Complicity in the Dallas Coup d'Etat; (III) What Watergate Revealed About Other Nixon Crimes (the murder of J. Edgar Hoover and the shooting of George Wallace); (IV) The Chappaquiddick Crime - A Corner of the Veil Is Lifted; (V) The Entrapment and Vindication of Jim Garrison. To the grounds for impeachment turned up by the Watergate Committee, the present report adds at least six more counts of indictment, all based on solid circumstantial evidence that has been deliberately swept under the rug by the same news media which now so bravely pursue the Watergate leads.

Joachim Joesten, author of 42 trade books published in eight countries, has been since November 1963 in the forefront of the small group of truth-seekers who have challenged the official myths about the two Kennedy assassinations and the Chappaquiddick frameup in which Mary Jo Kopechne was murdered. His "Oswald: Assassin or Fall Guy?" (New York, June 1964) made the first breach in the towering wall of deception behind which Nixon is still hiding. You will be aghast at, but also deeply impressed, by his newest work, "The Assorted Crimes of Richard M. Nixon" which sums up all the untold wrongdoing during America's most shameful decade.

The present report - which is mimeographed, not printed - runs to about 15,000 words and is priced at \$ 25.00 (twenty-five dollars) a copy. Please send all orders and inquiries direct to the author: Joachim Joesten, 8121 Böbing Über Weilheim (Obb.), Haus 161, West Germany. Add \$ 1.50 if air delivery is wanted.

New Light on the Robert Kennedy Murder Fraud

How the leading presidential candidate in 1968 was murdered by the CIA - and why

An eye-opening exposé by JOACHIM JOESTEN, author of "Oswald: Assassin or Fall Guy?" and seven other books about the JFK assassination

The search for the truth about the assassination of President John F. Kennedy is now focussed on the establishment of the true facts concerning the slaying of his brother Robert five years later. That is so because of an essential difference in the availability of research materials to independent observers: whereas in the case of the JFK assassination all the material evidence has been tightly controlled from the start - and still is - by those who organized the Dallas coup d'état and benefited from it, key documents which under close scrutiny reveal the basic truth about the Robert Kennedy assassination now have become freely available to researchers.

These truly illuminating documents are: (A) The previously secret autopsy report by Dr. Thomas T. Noguchi, chief medical examiner-coroner, County of Los Angeles, which proves (a) that the fatal bullet fragmented in the head of the Senator and that therefore the claim of the Los Angeles Police Department that this bullet had been "recovered from the victim's head and booked as evidence" was a deliberate lie; (b) that this bullet was fired from contact distance (one inch from Kennedy's ear), while Sirhan never got closer than three feet to the Senator; and (c) that the direction of this shot, which Dr. Noguchi describes as "right to left, slightly to front, upward," was totally incompatible with the shooting position of Sirhan.

and (2) The complete, 272-page official transcript of the Grand Jury Proceedings of June 7, 1968, in the Sirhan Case (No. A-233421) which reveals, among a host of other telltale details, (a) that all the eyewitnesses closest to Kennedy at the time of the shooting testified concordantly that Sirhan was at least three feet away from the Senator and in front of him, while the fatal bullet entered Kennedy's head behind the right ear; and (b) that the LAPD's ballistics expert, Dewayne A. Wolfer, deliberately and falsely created the impression that he had identified the fatal bullet as having come from Sirhan's gun, while all he had at his disposal was another, non-fatal bullet.

Here, then, is one conspiracy easy to prove because the fraud was so blatant and self-exposing; because the true facts have been officially established - and then ignored at Sirhan's trial - leaving no room for "speculation" charges; and finally because the coverup lacks the sham prestige of the Warren Report. If it can be proved - and even the blindest and most obturate will have to yield to this cogent presentation of the evidence - that Robert Kennedy was the victim of a conspiracy, with another gunman shooting at him from behind while Sirhan gesticulated in front, then it becomes self-evident that the President also fell victim to a plot, for the two crimes are intimately linked. The killing of RFK would make no sense whatsoever except on the premise that the organizers of the Dallas coup d'état feared his ascent to the presidency which would have meant to them, inevitably, exposure and punishment.

The murder of Robert Kennedy was organized and executed by the same agency which was responsible for the Dallas coup d'état (camouflaged as the senseless deed of one Lee Harvey Oswald) - the CIA. Both Sirhan and the real killer, Thane Eugene Cesar, were CIA agents, as is conclusively demonstrated in the present report:
