Pem's is a converient memory. It doesnot include adat it does not want. About $I_{\text {onn }}$, too.

He eamormed Ton to we by phoise $1 / 1 / 67$, laading to wy making arragemonts for Tow in Washiagton and staylag away from the Arcilves while he was ther not to complicate life for him and Garrison.

Bot until I developed ny owis doubts and checked did I leara - rot from Pema but from L.A. - that from their first association Tom was a pig.

Sorry you have not 舥en fit to reapond to ay inquiry about the balazee of your Momplia motes, but that is your affair. I'm sure you havo been out of it so I caution you very atrongly acainat haviag anything to do with thoes who exploited Garrisom in the past or today represent the mew Huse comeittee. To date it has bsen $^{\text {pas }}$ little more than an adjunct of the $\mathrm{DJ}^{\circ}$.

The commercializers and the muts, prememinently Lane, have alrandy begur a tr diminfornation operation that to date han mialed the comuittee. It ia quite willing to be misled. The chief coussel is exactly what the Phila. ACLD said, totally unconcerned about legal mighte. The two the Members are in association with euts oxly, "obody's word there is worth anytbing, tis frow gersomal experience.

The way thoy are going thifs will be a perpetual tracusa.
All the top lanyors are prosecutora, the worst from the DJ.
$H_{0 \text { Pa }}$ you are all well and hapy. Having to kecp my lege horizoatal when I'm not walliag ham caamed boing a bitig deal if it has not improved my typing.  about any injury, even bruising. Ia woric for several years, when i.t bocame apparont that those tho do ao work and thus have pleaty of tiae to sisues that of others cannot bex competed with I switched wy Socus to the courts. I have thre current FOLA casses, all working out well. In one I've forond the FBI to agree to give me the entire King file. They've begua and admit it will rua 18,000 pages. Actually there ia much more. I've begun the depomit of my papers inax a university archives. (I' pushimg 64.) Ton daya ago I won in the opurts the right to compel the CIA to rospond to interrogatories in a suit in which it is not the respoudent. So, to the degree I can influance it wy work continues to be groductive. With the midiraction of tha now cosadttee the ghift to the court, which preceedad the Sehweiker abortion, seons like the right deciaiom. It also looks promising. I'l gatting to take first-parsoa testianoy from FBI people, including four agenta who took sarly retirement in an effort to avoid it.
