Dear Mr. Jones,

My name is Scott Wilson. I reside at 78 Toronto Avenue,
Massapequa, N.Y. 11750.

I have tried for some time without success to purchase
your books on the JFK assassination namely Forgive My Grief
Vols. 1-4.

I am wondering if you sell your books and if you do I
would like to purchase them from you. If you could send me
the necessary information regarding this I would be grateful.

I have been studying the assassination as a hobby since
1967. I have read numerous books and articles and have a
substantial ongoing correspondence with Harold Weisberg. I
have learned many things from Mr. Weisberg. There are many
more things I would like to learn or I feel that it will take
many years to achieve a solid understanding of the assassination.

I have read that you theorize that there were 9 assassins
in Dealy Plaza on 11/22/63. I am very curious to find out
how you came to that conclusion about 9 assassins. If you
would be kind enough to elaborate on the 9 assassins scenario
and send me any information regarding the purchase of your
books, I would be very appreciative.

Sincerely,

Scott M. Wilson

Dear Scott Wilson,

Yes, for many years now, I have said there were 9 gunmen. That is because I did
25 years of research and came to that conclusion very certainly because I interviewed
witnesses and family of people involved in the assassination. I visited gun training
sights in Oklahoma where the men were trained to kill the President and also
talked with family members whose kin were involved and knew the exact number. I know
where the gun team stayed the night before and how many. I didn't just come up with
the figure out of the blue. I spent 25 years of my life researching. And, I was in the
military 30 years and retired a Brig. General. I know quite a lot about military
operations and killing. I know about how to stage a coup. And, that's all I will say.

I have a few sets of my books. Volume 2 is out of print. But volume 1, 3 & 4 are
available for 45 dollars the set. I pay postage, handling and such, plus I will send
you a copy of the Zapruder film (8mm) and back issues of my newsletter. And, sign the
books. Hope this helps. I am nearly 80 and no longer work on the case. My books are

nearly all gone, but I still have a few. I must recover cost since I printed them myself and published them privately.

Thank you for your comments and glad to hear from you. Yes, Weisberg has done some fine work. He and Josiah Thompson did some of the best ever.

I hope this answers some of the questions you had and will be of service to you.

Thank you for writing. I no longer am able to research, but I so welcome letters of inquiry.

Sincerely,

Dear Scott,

No it is nothing extra for the few newsletters and the Z film.

Gerald Posner was on a local station on TV tonight and down in Dealey Plaza. He is most certainly a trained Agent who was commissioned to do his book. He kept making so many mistakes. He made a big mistake about the parade route and several other mistakes that only a misinformed person would make. It is obvious the government continues to cover-up the crime of killing the President and Posner is a tool. He had a price and was paid and now he will do whatever they (government/CIA) tells him.

That is amazing that Weisberg was fooled by Posner, but I myself have fallen into the trap many times. You see, the spies/agents are so well trained to fool us. We don't have the experience they have. They can beat us every time that way.

Now for your other question. From my investigation I determined 9 guns were firing at the President. A lady flew down from Michigan years ago and told me an amazing story about her brother being involved in the assassination. He was put in charge of keeping the gunmen on Nov. 21st. They were housed at the Highlander Hotel on Lomo Alton off Lemmon. She told me that her brother wasn't ever surprised when the President was killed. Her brother was vice president of the Riggs Nat. Bank in D.C. He told her the gunmen were all paid the morning of the 21st and that they never lived to spend the \$. Two plane crashes occurred that day,

Nov. 22 - 63. One in Old Mexico and the other in the Gulf of Mexico.
It is not important who the gunmen were. They were trained gunmen chosen because they could hit a target 10 times out of 10. And, they were told to give it their Sunday shot. They were professional gunmen.

It was a military coup - coup de **etat**. We are still living under that coup.

That ~~the~~ gunmen were trained I know. I visited a training sight in Oklahoma. I took pictures of it, but by the time I visited it, all that remained was the foundation. The carpenter who had helped build it contacted me and told me what had been going on there.

The secondary gunmen were stationed futher down than Dealey Plaza and near Cobb Stadium (which has been torn down). They were/needed and got paid without having to work.
NOT

I spent many years on the case and I documented the evidence in my newspaper - The Midlothian Mirror.

I was in the military 30 years and have a good idea of military operations.

You are correct in saying it is obscene that justice had not been served. We are still living under that 63' coup. That's why. No justice.

That's why we have Posner's book and all the symposiums. But it will take more than a symposium to solve the case and change the course we're on. Bobby Kennedy tried to change the course and was gunned down.

I am an old old man and can do nothing more, now. It is up to the young people to get mad enough to do something about restoring democracy.

I made 3 D days in WWII. It never occurred to me to question whether my country was worth it. Young people today take for granted what Myself and hundreds of thousands of other servicemen didn't. We fought for freedom, then watched it die a fact death on November 22, 1963.

Sincerely,

Penn Jones Jr.
