Dear L.A.,

Thanks for sending the copy of the T-H story. I knew it was coming but had not seen it.

Strange that they should have selected such a picture. They went to all the trouble and cost of sending a photog and he took at least three rolls of 35mm or more than a hundred exposures. But they could have used AP or the local papers, for less cost and trouble. Oh, well, the story isn't too bad!

Hope all of you down there are well. Our best to all.

Dear Harold,

What a rotten picture! You are  
much better looking than that!

Hope all is well with you and  
yours -

R.G.
