2/21: Sorry reur not unexpected 2/17. But by now you know I distinguish between your good work with Z and TV & tahlidamide-like anthology project. Shum self-pity and go for selfanalysis, devil's advocating your project and the carlier work. Ask yourself is conclusions err, deceive people, can help forces of darkness. Today's headlines confirm my direct on Gregory-Grodin (who've probably learned and falled silent). All this insome stuff about CIA exculpates them from crimes theydid commit. No spiritual generation gap. Problems are responsibility, end results. Choices not necessarily between quiting and not changing approach. Most of the stuff you've read poisoned you mind. It was crap. ... Think you were wrong to turn down new TV requests because you stuck to fact people should know in what you sent me and that I'm all for. This week both Canadaian TV nets copped out on Z after govt net showed 1t because of these wild interpretations and irresponsibilities leading to threats of suits. The Washington TV station that was so courageous and told Time go sue now won't touch subject at all. All because of these needless and counter-productive insanities... Thehes for trying with WWIV. Alternative suggestion, try to see ancillary rights to direct quotes of transcript on CLA perfidy, now topical as hall and nothing more authoritative than Dulles. Angle: how can there be an investigation depending upon the testimony of those to whom perjury is the highest dedication, ultimate patriotism? And if the spooks can't be controlled, can there be meaningful freedom? Their attitudes is modest Hitlerian. They also are sincere in their belief. They alone know and understand. The people are ignorant, democracy outdated in their concept of the modern world (that they have fashioned with this line).

Whether or not you quite, please think this through as self-critically as you can. It will then do you some good, regardless, and you'll have self-respect and integrity left. We all err. We are better for recognizing it. The political darkness does grow. But we don't shed light by miling and on. This experience shouldhave been invaluable for you, both aspects. Good for your wife. (Mine locked onto me when I started to go to work at 3 a.m. and didn't let me out of bed until I'd had a good aloop because a tought weakend lies ahead. I'm taping a show with Gregory & both Mc illans Junday in New York and I'll be doing some investigating while I'm there.) She also had you face the situation, which is what I urge in a different way. She had you meet a man's obligations. I also urge that, again in different way. I never seek copies of the work of most of those you mentioned, read it only sometimes when it is sent. They don't know enough to write anything and they invent, persuasively & conmercially... The one devantage of years is the experience they make possible drawing upon. eke use of mine for your own benefit. I've levelled with you and not minced words. But not to insult, to open your mind to realities. Don't throw away the good you have done in immature attachment to an abortion. You have no monopoly on faulty judgement. Mine have almost all lain in truting the untrustworthy, but I continue to thust people and myself & all the adversities I hope you never experience haven't stopped me. Don't let one stop you. Unless you conclude that you can't handle this responsibly. Please also ing considering my advise believe that I have lived experiences and political events you have not. Best wishes,
