December 15, 1969

Mr. Richard Kleindianat Deputy Attorney General The Department of Justice Reshington, D.C.

Dear Mr. Meindienst,

Because I never did get a riply from your Department in response to a number of requests going back most of a year, and because you did respond to my attorney's letter to the attorney beneral, if that required almost three months I am directing this request to you, essuming you to be the proper person and in the hope you will order compliance with the time specifications of the "freedom of information Act".

You are, no doubt, familiar with the two medical reports released by your department the night before the hearing in Judge Helleck's court on the action brought by New Orleans District Atterney Jim Gerrison in his successful petition to have access to the pictures and hereys of the sutopsy performed on Fresident Kennedy made sysilable to him. These medical reports were ande to your department by the autopsy surgeons in 1867 and by a special penal convoked by your department, in 1968, and, in final form, were filed in court.

I em writing to request access to the raw metericle of these reports by this I mean notes, rough drafts, finel panel drafts, individual reports by any of the panel members or advisors and relevant correspondence and memorands, etc. If, as have reason to believe, the report of the special panel was edited, a would like to know by whom and on whose orders. By "panel" here, I mean both groups, and by not a and memorands, I also mean to include any minutes of their mettings, deliberations, comments, etc. In the event some of this was verbel, I also would like enything committed to paper as a result or in persuance of requests not made in writing and responses. If either panel mode requests for evidence either denied or not made evailable and there is no written record, I hope you will enquire into this, because of the nature of the subject, and tall me what was not made available, by whose decision or order, and why.

If you will look into this, you will find that material described above was made public by your department when it suited departments! purposes or convenience.

I would like to be able to examine these files and, if they are useful in my writing and research, perhaps obtain electrostatic copies of parts.

Recause it may slip your mind, I take the liberty of reminding you that the "Freedom of Information wet" does re uire prompt response. I hepe in this instance it will be done.

Thanks for taking care of this.

Commenced to the second of the second

Sincerely,
