

OFFICE OF THE DEPUTY ATTORNEY GENERAL
WASHINGTON, D.C. 20530

February 10, 1970

Gold Weisberg
Dr Press
3
Baltimore, Maryland 21701

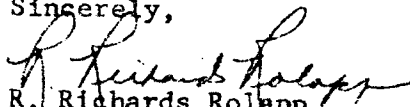

Gold Weisberg:

I have received your letter of February 4, 1970 in which you express dissatisfaction with my response to your prior request for certain materials you believe are in the files of this Department.

Your letter of February 2 was not a denial of your request pursuant to the Freedom of Information Act. In accordance with the regulations of this Department, requests must be submitted on Form D. J. 118. I am enclosing copies of this form in the event you wish to make a formal request.

I have indicated in my previous letter, the materials described in your letter of December 15 do not exist in our files. We are assuming you are referring to a request to reports of observations made by the medical examiners and the advising panel to the Attorney General of the autopsy photographs and x-rays. If so, the materials such as described in your letter are not in this Department's files. The two panels met, discussed, deliberated and reported. If they kept notes they were not turned over to the Department.

Sincerely,

R. Richards Rolapp
Special Assistant to the
Deputy Attorney General
