Fir. Richard Eleindienst Doputy Attorney General The Department of Justice Washington, D.C.

Dear Ar. Kleindienst,

In an interview a week ago, of which I have a transcript, forcer Attorney General Clark, speaking of the pictures of the autopey of Freedent Kennedy, and of the X-rays, said:

...They've been examined by the foremost pathologists and neurologists in the United States and those non have given sworn statements that they support the findings of the Warren Commission...

This is news to me. I seek your confirmation, this having been a function of your Department under Mr. Clark. Will you please give me the names of any neorologists who performed such examinations? Were there any purpologists or other superts to make any such examinations aside from the panel court of by Ar. Clark? Bid any of these give "sworm statements"?

My perplexity comes from the fact that none of the foregoing is disclosed in the reports of dr. Clark's panel.

If there are may such statements, by neurologists or others them the nembers of this panel, or may such sworm statements repuritors of by whom, I would like to request copies of all.

Of course, if Mr. Clark in in error, I would like to be informed of that also.

Sinceraly,

Harold seinborg
