## 3/17/77

## Dear Mr. Kurtz,

Health and the amount of work I'm still trying to do, including three current suits to end suppression, preclude a definitive answer to your letter postmarked yesterday.

In my opinion the committee has made the mess in which it is knowingly. I do not know the reason. I'm without doubt on fact.

If you are as familiar with the literature as your letter indicates then you are aware that all its breathless leaks of it sensation investigations are cribbed. That it to say where not fictitious.

They are now staging Keystone Kops media events in an effort to prolong themselves. While - began calling for a Congressional investigation about 2/65, I fear the death of this one before it can do more harm may be the lesser evil.

Many thanks for your kind thoughts.

## Sincerely,

Dear Mr. Weisburg,

I have become very interested in your work and initiative in the investigation of the assassination of John F. Kennedy. I have decided to employ this topic in a freshman research paper at Lebanon Valley College in Annville, Pa., and need your help.

If at all possible, would you please write to me your views of the present investigation, The Warren Report, and any <u>personal</u> theory you may have formed to account for the assassination (the reason behind the conspiracy). I have read your works and am fascinated by your knowledge.

Your speedy response (of course, at your convenience) would be of great help since this is a timed research project.

I would like to thank you for throwing your personal assets towards a goal of finding the truth about the biggest deception of all time.

Sincerely yours,

Thomas R ICenty
