Dear Mr. Missling,

Thanks for your letter.

The confusion over the price of Post Mortem is how you read it. The price of the book is \$18. By insured mail it is \$20.

It is not possible to give definitive answers to too many questions about the assassination. If you have my <u>MEVER AGMIN!</u> and recall how it begins, that is why-because the crime itself was never investigated and was never intended to be. There are also many possible explanations for the dispersal of tissue from the head. I would not undertake to give you any definitive explanation and have none. Movever, it is possible as you ask, for two shots that were almost simultaneous.

This is also the case in trying to figure out who was behind the job. Those you rule out I think are eliminated by the known facts. Those same facts also rule out some others, like the mafia. I doubt very much that there was any FBI involvement and do not believe Texas oil men were involved.

I know of no reason to believe that LBJ had any foreknowledge or involvement and believe he had none.

Ditto for bixon.

I believe JFK was assassinated to change national policy. Not domestic as much as foreign. That was the only way to change it and eyough was known about Johnson to be confident there would be, as there were, those changes in national policy.

Thanks andbedt wishes,

Harold Weisberg

Jack Kissling

Dear Mr. Weisberg.

Many thanks for your letter and ordering information.

I'm going to have to so this a little bit at a time, as money is a bit tight (I'm out of work right now). So please send me the following:

1 Whitewash II (Top Secret JFK assassination Transcript) \_ \$ 13.50

@ Photographic Whitewash \_\_\_\_\_\_ # 15.50

glease find enclosed a check for \$ 29.00. I we always admired your work, so I will appreciate it very much if you will autograph both books: I hash you.

I hope to order two more books in the near future - as morey allows. In the meantime I have a question on the price of fost morten. In one place it is listed as \$ 18.00, and in another it says \$ 20.00. Which is correct? I realize it is only \$ 20.00. Which is correct? I realize it is only

I hope I'm not being too much of a bother, but I is like to ash a soughe of questions about the assassination.

De my previous letter I had asked you why the film shows J.F.K.'s blood and brain motter spraying out the front of his head, when all of the evidence clearly shows he was shot from the front (plus the rear, but that head shot was from the front), your answer was that the spray was in all directions, I know one of the motorcycle cops stated his pridaheld was forered in blood, but the yearing JFK)

The Late Care film seems to show the greatest amount spraying forward, I don't understand this, as it seems to befy the laws of physics and balliotics. Could be have been shot in the front and rear of the head at the same time? (2) Who do you believe was involved in the assassination? I don't believe Russia or Cuba was involved, though some Cubars independ ently could have been in or it. I do believe The C.I.A., working with the mafia, was the principal culprit. I believe it's also likely that the F.B.I. and some extreme right wing oil men were in or it, too. Do you agree? Do you think Lyndon Johnson and/or hixon were involved? I believe Johnson had forekrowledge, but I don I know about hixon. I thank you very much for your kind invitation to look through your files. If I'm ever in the area d'd certainly like to do that - but more, d'il like to talk with you about the assassination and your work. I certainly hope your health has greatly improved, and that it continues to do so. Thank you again, take care. Sincerely > ack trailing The state of the s color the see for the how sho we from the fact of from mon out in the first his winderly said love to the the
