

Dear Ms. Koontz,

11/21/94

I appreciate your thoughtful note. I wish ⁺ had the time to respond as you apparently would like. But I'm 81, impaired and in poor health, and I'm striving to use the time that remains for me to perfect the record for history to the degree possible for me.

As in my books you may have observed, I restrict myself pretty much entirely to the official evidence and do no theorizing. The crime itself was never officially investigated so there are no leads private persons can follow to solve the case. To theorize when no responsible writer can present a solution that way is to deceive and mislead the people.

The short answer to your question is that JFK was ^{la} assassinated to change policy. And that did happen. I've a book manuscript on that but there is little prospect of publication. NEVER AGAIN!, which could have appeared before the middle of last year, is again delayed, and for practical purposes, that means suppressed.

I appreciate the thoughtfulness of the SASE. Thanks for it.

Best wishes,

Harold Weisberg

Dear Mr. Weisberg,

Although, I was only three years old at the time at the murder of President Kennedy. I have a great interest in it. I own and have read many books concerning the assassination. Many of which you have written and I own several of your books. I am currently reading CASE OPEN. However, I don't fully understand why this tragic thing happened. I would appreciate if you might be able to give me your opinion about who did this tragic thing and why.

I have enclosed a self stamped self addressed envelope for you to use. I would appreciate any information that you might give me.

Sincerely,

Tammy Koontz
