8/17/92

Dear Mr. Carver and daughter,

If I were not, as Jim Lesar should have told you, 79, in seriously impaired health, so severely limited in what I can do I am not able to search my files for my own work and still trying to write I would nonetheless have had to tell you that doing the search<sup>ed</sup> for which you ask is impossible.

It is simply too much work to ask of anyone.

Some of it is available from the FBI because it was disclosed to me in FOIA litigation. They charge 10¢ a page and take a long time in complying. They might, however, assess a search fee. I do not know.

Some of what you ask for is in my books. I enclose a list of them.

You say you have come upon something that could be a key facet in the JFK assassination <sup>but</sup> ~~it~~ you do not say what it is.

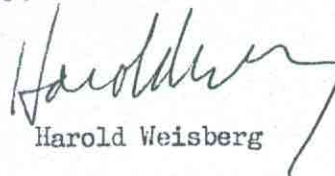

If it relates to what you asked I very much doubt you have.

And one can spend an enormous amount of time chasing ghosts in this field.

As so many did without yet learning that they did.

If you are ever in this area you are perfectly welcome to search for the records you want and to make copies on our copier.

Sincerely,

  
Harold Weisberg

Dear Mr. Weisberg,

My name is Rich Kyser, and I am a member of AARC. My daughter Stephenie and I have been researching the assassination of JFK for some time. We believe, we have come upon something that could be a key facet of the assassination. And as far as we know, noone has reseached this point to any extent.

In a phone conversation with Attorney Jim Lesar, I asked him for some material on the assassination. He told me, I might have an chance locating what we are looking for, from you. We do hope you can help us!

Firstly, The ballistics reports on the following: a) Mannlicher rifle (FBI, Dal.P.D.). b)Oswald's 38 cal revolver. c) paraffin tests in relationship to Oswald and both weapons. d) spectro-graphic analysis on the weapons (if applies). e) corespondence between the Commission and the FBI & Dallas P.D., pertaining to the above.

Secondly, Any photographs (copies) of CE399, the Mannlicher Carcano rifle, and the .38 cal. pistol of Oswald's. Next, the corespondence between the WC, FBI, and D.P.D.

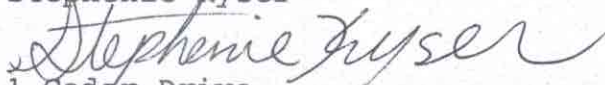

Lastly, copies of the documents used in your books on the JFK assassination. If you could let us know of any costs pertaining to our requests, it would be greatly appreciated. If you wish to correlate our requests with Attorney Lesar and the AARC, please let us know how soon we can get together on this material.

Thank you for your time and any help you can give us!

Sincerely,

R. A. Kyser
