Dear Sir:

Please send me a copie of your latest book entitled, "Post Mortem." I have enclosed a check for \$10.75 to have the book insured. In addition, please send me some information on another book that you wrote entitled, "Oswald In New Orleans."

Is this book available?, and at what cost?

Finally, I heard you say in an interview on the PBS show "Black Journal," that the Itek Co. revealed in a 1965 study of the Willis photograghs, that they discovered another assassin in the grassy knoll area perched on a station wagon roof. Yet, in the recent CBS Reports Inquiry on the Kennedy Assassination with Dan Rather, Itek made no mention of their 1965 findings, or their findings in the Spring of this year dealing with another assassin at frame 413 of the Zapruder film. Robert Groden has informed me that Itek confirmed the figure in the tree at frame 413 as being a man firing a rifle with a mounted scope.

Please give me some documented information on Itek, and try to let me know what forces control this company. In addition, why is Dan Rather always on CBS's Inquiry's into the Kennedy Assassination? I heard he was on the triple overpass with a film crew at the time Kennedy was killed. Is that true?, and if so how come that film has never been shown, and how come Dan Rather went from an ordinary news correspondant to White House correspondant within 5 years? Can you clarify?

Thank you for your cooperation.

Sincerely,

*James A. Kinsella*

Your letter is a very good example of what happens when people who have done no real work and have no real understanding of the fact suddenly become "experts," believe it themselves and tell others what simply sin't true. Example: no camera crew on underpass. All Itek confirm for Life, in 1967, is what I'd written, that the fifth Willis slide shows a man on the knoll. They did not confirm a refile and did not say what you attribute to Groden.

I can't explain Rather. We've never spoken. Maybe it is no more than that he likes his job and does what it requires. I don't know. His rise in CBS seems to have been due to their belief LBJ would favor a Texan as their White House correspondent.
