Dear Mr. Lekas,

Beginning back in 1966, when I was in the LA area and from elsewhere by phone Mr. Jackson did air me with what then was the first book on the Warren Commission, the first of my Whitewash series.

Herewith my Case Open, rather what remains of it after shortening it to speed publishing up and to be able to sell it for less. What remains, I believe, is a solid case for Gerald Posner and Random House as the most successful of the exploiters and commercializers of the JFK assassination.

Sorry my typing cannot be better. I'm 81 now and in impaired health. These health problems lead to my living convoluted hours. Because I cannot avoid being up very early, I must retire very early, 6 pm local time here, three out there. I can, of course, extend that a little.

This also means, if there are late-night shows on your station that might have the interest, that I can do shows that begin at midnight there.

Sorry travel is impossible for me and I won't be out there.

If you know nothing about my work, this is my seventh JFK assassination book. No theory in it, none in any of them, and in that my writing is unique. It comes entirely from the official evidence. What I have of that includes about a third of a million pages that were once withheld. I got them by a dozen FOIA lawsuits some of which were precedental and one of which lead to the 1974 amending of FOIA to open CIA, FBI and similar agency files to FOIA access.

I hope your listeners will be able to learn the truth about what was promoted so heavily and did mislead them, Posner's rewriting of our precious and painful history-for money.

Sincerely,

  
Harold Weisberg
