

6/10/74

Dear Ed,

You were supposed to have left a list of the files you took and none current.

I find no such list and I am in need ~~one~~ of one.

Would you please copy from the Strader file and send the copy immediately only the contract that is in it and any attachments to it?

For the rest I have no pressing need. However, if it is not extensive, it might be best to have a copy of all.

I'm sorry you didn't go over these things with me. I did not anticipate you would be leaving as soon as you did. In this case, you had no way of knowing that to me this particular one is a current file.

If you still have the list you made, would you please mail it?

Hastily,
