Mr. Jim Garrison
District Attorney
New Orleans, La.

Sir; I am writing you in respect to the Kennedy assassination more specifically in regards to Oswalds trip to Mexico in 1963. It begins when I was present at the Cuban Embassy Sept 30, 1963 and subsequent days in Mexico City, a time Oswald was allegedly present. Because of this factor, at Mark Lane's suggestion, I returned to do research in Mexico concerning aspects of Oswalds trip to Mexico. This occurred in Feb of 1964 upon my part. I had considerable trouble however; I was ejected from the Casa de Los Amigos, calle Mariscal #132 after Mexican secret police surrounded the place. I did turn up where Oswald stayed and uncovered an American intelligence agent, etc. When Ramparts magazine later issued a Kennedy memorial issue, I was assigned by them to do all relevant research on Oswalds trip to Mexico. Needless to say I became somewhat of an "expert" on this particular subject.

I would be glad to contribute or testify any of my information if requested. I would voluntarily accept a subpoenae. Unfortunately I do not presently receive a working salary as a guest lecturer at the State College and would need transportation and per-diem, a minimum I might add. Incidentally I set up a "Kennedy Assassination Workshop" here at the Experimental College, calling in Harold Verb and others to conduct the research. Please write me c/o SF State Experimental College, 1600 Hollaway St. San Francisco, California.

Sincerly Yours,
Roberto Kaffke
