Dear atty,

## 4/10/97

After reading your letter of the 7 th I just sat ad thought. With what your Griselda of a mother wet throllier what happened to her is what I fd not have exp pected. But linowing nothing about such matters, $\perp$ suppose the past can have
that lind of influence. $I_{n}$ any event, she is one of the finest human being I met add we both hope that she continues to do well-for a long time!
inc is on our minds more than usual right now. I've just had my 34th birthday and there is tho most surprising flow of kind card from total strangers, people I'd never heard of. I suppose some of those interested in the assassinations told others. and in eight days $\mathcal{L}_{\mathrm{i}}$ ]. has her birthday.

The yours have not been easy but they have been kind to me because I'm still howe and on function. 'f I had a bit more energy Id pee a FOIA lawsuit against OfBrien, who lied to we and have the proof. But a year ago 1 had congestive heart failure with many complications, was discharged by the local hospital after two we ks, and then had it all over again. That time the expert called in by near cardiologist rushed mo to Johns ${ }^{\text {Hopkins. }}+1$ was there more than three eek. When I saw this local ulnonary expert three weeks aft he told me herd not expected to see meflive again. So, wt til a list of nine serious medical problem s, including ronal insufficiency and for the first time fix in my long life high, really high blood pressure on the Johns $H_{\text {opting rep }}$ rt to him, Inn lucky.
mil is still making; out without the hip replicengent she'll at some point need.

There is not much you can about abut tho PBI un h hiss you can take then to court and whin they do have a backlog you have to have a reason for not waiting for then to a each you. I have that but given the choice between continuing working with the energy that remains or taking tine for that, I work. I'll be leaving many manuscripts that will bo irporteint in out history. Aa I dan I'm getting them retyped on computers and disfitibute disks among my educator friends.

Sorry $\mathrm{I}_{\text {on's situation is no better and, of course, we are sorry that ala }}$ this extra burden falls on you. But /you'11 do it and maḳik it.

Please give your mother our wishes ion a full recovery and many good years with no troubles and two beautiful granddaughters to make her happy. Lovey This git
