

IN MEMORY OF

Jackie

Jacqueline Kennedy Onassis was an American icon.

Just the name, her name, said it all.

"Jackie" will always be synonymous with style and sophistication.

She was class.

It showed through whether she was strolling a Martha's Vineyard beach in jeans or Fifth Avenue in Chanel.

She will be remembered for her pink suit and pillbox hat, her oversized sunglasses and her quest for privacy in a world that wouldn't leave her alone.

She was strong.

It showed when she displayed grace and dignity to a mourning nation.

It showed when she raised two strong, stable and successful children by herself.

And it showed when she struck out on a successful career of her own in book publishing.

She lived her life under the spotlights of the world stage, but succeeded in building a fulfilling life for herself around her family and close friends.

She died as she lived.

With quiet dignity.
