

Dear George,

2/21/84

Enclosed are some pages of the unpublished Lowenstein-Joling book on the RFK assassination I think the Post may want on file. Not that any developments are predicatable. But who knows?

I got a full copy of the ms from one of Lowenstein's former student associates.

When I get them I'll send you copies of the FBI/DJ's latest in the repressive precedent business about which I've written you. I understand that the response to my allegation that they had threatened my lawyer while failing to move against me is to deny it vigorously while spelling out precisely how they did it.

I understand that in a civil rights case before the kind of judge they like the DJ got the lawyer assessed \$19,000 in costs after he lost that case.

Because mine and that one are the only instances of which I know I cannot but wonder if the Reagan DJ is selecting plaintiffs without means, who can have only those lawyers who will represent them when they cannot pay, for establishing precedents that threaten all lawyers.

When I get what DJ filed I'll send you copies. Jim tells me that there is not even a hint in it of going after the presumed offender, me.

The CIA also has what to me is a new gimmick for not responding. When I can answer their letter I'll send you copies of both.

I've been around a long time George, on the Hill, in the executive branch and reporting, and aside from what I can see and reason I think I can feel. All senses tell me that a tougher time lies ahead for the major media and that some of this will be ~~based~~ based on what the government can expect to be able to get away with because the major media will ignore it.

Best wishes,
