**RFK's Son Against
Reopening Probe**

NEW YORK, Sept. 4 (UPI)—Robert F. Kennedy Jr., the 21-year-old son of the late Sen. Robert F. Kennedy, said today he opposes reopening the investigation into his father's assassination.

"Let it go—leave it," he told reporters at a news conference.

Kennedy, in New York to promote a television special stars in, was asked his opinion of the theory that a second gun was used in the June, 1968, fatal shooting of his father in Los Angeles. "I don't think there's anything to it," he said "I think all it takes is one crazy guy. Let it go—leave it."
