11/25/68

Dear Jim:

As you can see, we got national UPI wire coverage on the brief telephone beepor thing we did last Friday. Got wire coverage on one with Harold too which we had taped while he was out here for release on the 5'th anniversary.

Unfortunately Jim we could have done a lot more with regards to national press. When you called I was unable to do a question and answer appendage to your statement because I had to go on the air in a matter of minutes (so forgive me if I sounded rushed). But that was the whole reason behind my many calls to you in the weeks preceding the observance. I wanted to do an in-depth special assignment report..these are things that I script and produce and release in ten other markets other than Los Angeles, including, New York, Boston, Washington DC, Detroit, San Francisco, Memphis, San Diego, Chicago and New Orleans (to say nothing of course of the UPI wire release and its subsequent newspaper coverage).

Because of the delay in getting hold of you and my in-ability to do more when you called, we fell far short of this mark.

Jim, I know you're busy and under extreme pressure but don't cut off the pipelines that are there and waiting to take your case before the public. There are many of us who do believe in you.

Best regards,

ART KEVIN
