Dear Art.

By now if the bar is going to give someone class a chance to speak hane will have latched onto it, I fear.

I don't think Ball will ask them to ask pe. But I've suggested it.

The problem with "ane doing it is that Lane, inevitably, will go to far. do never fails. And this will give Ball a derense. No truth is good enough for Lane, also.

Benides, I really would not so out there just to show him up.

Lane, maybe. But not Ball.

However, if you can awak to anyone on the bar condittee, please do.

I'd like to show a group of lawyers evidence a Precidential Commission did not seek or have forced on it by the executive agencies.

And in doing it shut all those souths so that perhaps there might be a chance for a little truth.

I dodn't take any time for the Bell letter. I stopped making notes on his errors as I listened to the tape because there are that many factual errors. Incredible that the lawyers are so compulsive and so ignorant at the case time.!

and he sure did not want to stand around and let you cak more questions!

Rese are the serlier latters I quote and a copy of bardner's story. What the judge said is even better.

Thanks and best to you all,
