Mr. ROBERT B. WARD, Assistant United States Attorney, Dallas, Texas, advised that on November 25, 1963, he recalls a visit by a Mr. ANGE KIMBROUGH, of Dallas, who was introduced to Mr. WARD by Mr. NICHOL WORGAN, a former Assistant United States Attorney in the Dallas Division and a close friend of WARD. Mr. WARD advised he understood WORGAN to be the family attorney for KIMBROUGH and that KIMBROUGH had requested an audience with WARD regarding certain coincidental conclusions which he had reached after a study of the newspaper items concerning the assassination of the President.

Mr. WARD stated KIMBROUGH furnished him with a hand-drawn map setting forth the close proximity of the residences of IRL HIRSHY ORLAND and JACK RUBY, and the fact that the direction which ORLAND took from his residence up to the time of his apprehension was in direct line with the residence of JACK RUBY. KIMBROUGH further pointed out the coincidence that the residence of General EDWIN A. WALKER, who had been fired upon in April, 1963, by an unknown sniper, was only six blocks away from the Vegas Club.

Mr. WARD advised that this map was furnished to him by KIMBROUGH as it appeared to hold some interest at that time and he subsequently furnished this map to Mr. HERBERT J. KIRBY, Attorney General in Charge of the Criminal Division, United States Department of Justice, who was visiting in Dallas following the assassination.

Mr. WARD advised further that KIMBROUGH visited him on several other occasions with different theories regarding the assassination and a possible conspiracy and, on May 19, 1964, KIMBROUGH again visited WARD's office and furnished him with a typewritten, five-page list of the names and addresses compiled by KIMBROUGH through a search of city directories and telephone directories, showing close proximity of residences, both past and present, of many individuals who have been, in one way or another, connected with the assassination investigation.

WARD stated that, upon perusal of this material, he did

not place too much stock in KIMBROUGH's conspiracy theory but, inasmuch as KIMBROUGH had indicated this information might be of value to the Federal Bureau of Investigation, he thought he would advise this Bureau for whatever investigation might be considered pertinent.

FROM FRANK KIMBOROUGH, 4008 Sherman Lane, Dallas, Texas, was interviewed at his residence at his request, at which time he advised he is President of his own construction business, doing business as Tinkley Road and Bridge Company, P. O. Box 1836, Dallas. He stated he is a licensed Civil Engineer, having graduated from the West Point Military Academy with that degree in 1945.

KIMBOROUGH advised he was deeply grieved over the assassination of President JOHN F. KENNEDY and has subsequently been very concerned with a Castro - Cuba inspired conspiracy through which the death of the President by prearranged plans. KIMBOROUGH advised he, therefore, has taken it upon himself to closely follow all news releases, periodicals, and other news media relating to the assassination.

KIMBOROUGH pointed out that he observed numerous colored-glasses from his study of the press releases relating to the assassination and, therefore, on November 25, 1963, the day following the shooting of THE SENATOR JOHN F. KENNEDY, he, in company with his family attorney, HENRY MORAN, a former assistant United States Attorney in Dallas, visited the offices of Assistant United States Attorney ROBERT S. WARD in Dallas to discuss his theories. He advised he presented a map to Mr. WARD drawn by himself to assist in locating a sighting line from the Oswald residence at 1025 North Beckley to the site of the killing of SENATOR J. F. KENNEDY at the 400 block of East 10th Street and to the residence of JACK RUBY. KIMBOROUGH advised it appeared to him to be of some significance that OSWALD was housed in the exact direction of JACK RUBY's residence at the time of his apprehension. KIMBOROUGH advised it further appeared to him to be of some significance that the residence of General HENRY A. WINTER, who was elected upon by a ballot in April, 1962, and the Texas Club, owned by JACK RUBY, were only six blocks apart. KIMBOROUGH advised he furnished this map to Mr. WARD for his review and the map was later given by WARD to Mr. HENRY MORAN, Attorney General, in charge of the Criminal Division of the United States Department of Justice, when Mr. MORAN was visiting Dallas at a subsequent date. KIMBOROUGH advised that, in furtherance of his

efforts to solve the mystery and point towards the general location surrounding the assassination of President KENNEDY, he has clipped all news relating to the assassination from the past few months, as well as major papers in New York, Chicago, Cleveland, and New Orleans. He advised he has compiled these news items in complete file and has cross-indexed many of these items so they can be maintained in accurate record of all individuals interviewed in connection with the assassination and their names and on which report. He stated, as a result of this report he has been able to identify individuals connected with the case around the area surrounding the assassination of the SENATOR OSWALD and JACK RUBY, and which indicates to him there was definitely a conspiracy by a Castro Cuban group and that both RUBY and OSWALD were deeply involved in this conspiracy. KIMBOROUGH advised his sole sources of information for obtaining previous and present addresses of individuals who he believes to be involved in this conspiracy were his public records, city directories and telephone directories for 1962, 1963 and 1964.

KIMBOROUGH furnished a typewritten, five-page list setting forth results of his checks concerning these individuals and a short explanation behind each individual mentioned therein regarding their relationship to each other. KIMBOROUGH pointed out that he has no personal knowledge of facts indicating any conspiracy connection between THE SENATOR OSWALD and JACK RUBY or otherwise to the assassination of the President, and his theory of a conspiracy stems exclusively from public source checks as noted above. One name he considered by KIMBOROUGH words as follows:

R&G re WD1245:211-5:

Spoke to Bud, who says it was a couple of years before the others of the Dallas group knew about Arch (whose cousin is Tim Reilly of the you know what coffee company).

Bud considers it likely that Arch's views have not changed, that his basic concepts as here recorded, which is, Sue's, too.

But, with this beginning, the federal reaction can be anticipated if not agreed with.

The dates are of mild interest as a reflection of purpose.

So, beware! Matt Herron lives two blocks from where Reissman did, from where those handbills were found, which also means two blocks from where Kent Courtney then lived and then printed, and Cary and Vince and I have all stayed with Matt, so you have us both ways, on both sides.

And Judge Hagerty's office has the same address as Garrison's, so now you know why.

And Barbara Ried is around the corner from where Ray stayed, so you know who really did that one.

And Bringuier rented space from the man who had Chep Morrison's secretary for a wife, which either explains his death why "Dawald" had his drunk next door - or why Fergie, who was also a pilot, also went there (next door) with his boys. With the US Customs house across the street yet.

This approach would not have hurt Garrison in the least.

Especially with the Dallas County sheriff across the street and in a direct line and the DA just around the corner. How did Arch miss these basic associations?
