

FBI-King Section 82 Serials 5851-5885 36 documents, 218 pp released

5854-FBI still wants a book praising its MURKIN, favors Readers Digest and Bishop but wants DJ ok, & 5863, CRD likes idea.

5858 McRae received what he says are non-threatening letter that violate no law but gives them to the FBI anyway saying he would abide by any decision the FBI makes and wants to know nothing about what it does.

5876 relates to 718-70. They all decide they can give me nothing because of the fake conspiracy case in B'ham. See 5880 below

5877 although earlier FBI Atlanta reports show that the FBI did burglarize the Ray rooms with Garner and tell how it was done here they decide to provide an affidavit saying the opposite. 5879 includes it. Note particularly last graf

5880 But as the note added to this recommendation that the Bihma charges be dropped states, the FBI suggested "several times" that the B'ham charges be dropped.

Unrecorded after 5882 reflects that Clyde Mason asked the FBI for a name-check on Bud as Eay's lawyer. They decide to tell some verbally and send attached letter, which is not here attached. in 5883 there is some duplication and a file, 77-44206. It is probably on Bud's application for a job.

Throughout I get the impression there is a basis for a new allegation of irremedial Constitutional violation. This Section reviewed before 81 was.
