

FBI-King Section 80 Serials 5746-5805 60 documents 215 pp. released

5748 represents what for the Memphis FO and the Bureau is a charade. It is a short airtel recounting Huie's having said Ray spent the night of 4/2 near Corinth, Miss whereas the Memphis F.O. knew it was just across the Miss line at the DeSoto motel. It sent copies to what appears to be 40 other F.O.s for follow-ups.

5750 is more on Bevel, more on penetrations of SCLC, some not entirely undescribed. The same 100 and RacialMatter/Bombings files are cited, Bevel's and SCLC's. This 5/13/68 airtel is from NY. It seems to identify a Phila SCLC source as PH 897-R, which I take to indicate racial as distinguished from political and criminal informant. His source was a Raymond (LNU). It reports that NY SCLC in under a masked name. ~~with~~ The FBI is keeping in "close contact with" (name masked). A Hq note at the end identifies this source as "a highly confidential source." This probably means high in NY SCLC. Claims to 7(C)&(D).

5753 is an odd teletype of an interview of Avery of May 20 over a news account of the day before of a threat against Ray not taken as more than a joke on 3/12/69.

5770/5771 Bevel kick, ~~with~~ claimed (D) ~~only~~ also (a). This is Atlanta Airtel of 6/4/69. It clearly indicates a source inside SCLC HQ who knew Bevel was recuperating in NYC and getting his paycheck forwarded from Phila residence. It has the same headings and file numbers, 100s, RMs, etc.

5775 Hoover okays recommend they stay away from Bevel not to "dignify his position and remarks," especially because of his "reported mental condition."

5798 Columbia report conversation with McMillan. He said in his 1962 SatEvePost piece he did mean Stoner by Mr X. He also identifies himself as the husband of the woman who was writing the Marina Oswald book. He reported what he took to be a threat from someone who answered Stoner's phone.

5802 list of and about list of property on Ray when captured.

5805 reports Huie's offer of a copy of the ms of his book. Earlier Bureau instructed its NY people to try to obtain a copy. But this 8/28/69 note on 8/28/69 airtel recommends against it lest Huie claim FBI "approval."
