CIVIL RIGHTS - CONSPIRACY

This Division is making an analysis of the facts in this case. To assure that no facts are overlooked, it is important that we have in our possession copies of all reports and interviews which your Bureau has conducted. In this connection, I note that on July 17, 1968, the Civil Rights Division and the Criminal Division received certain reports in connection with this matter transmitted by your Bureau on July 16, 1968. Two of the reports were dated June 14, 1968 from your Kansas City office, the third was dated May 15, 1968.

In order to insure that the Division file contains copies of all reports and interviews which your Bureau has conducted, I attach herewith the following lists of materials which we have received from your Bureau to date in reference to this matter:

- Attachment A: Reports of Special Agents
- Attachment B: Other Reports and Enclosures
- Attachment C: Memoranda to the Attorney General
- Attachment D: Memoranda to the Assistant Attorney General, Civil Rights Division
- Attachment E: Letterhead Memoranda

Please review these lists and transmit to this Division, to the Assistant Attorney General in charge of the Criminal Division and to the Attorney General copies of any reports or interviews which you have in your possession and which are not noted on the attached lists.

Please continue to furnish copies of all reports and interviews which your Bureau conducts as soon as they are received by your headquarters. I would request that delays such as that noted in the first paragraph of this memorandum be avoided if at all possible.

There does appear delay on getting Dept reports dated
