Dear Harold & Jill - It's been so many years. I hope you remember me, I will never forget either one of you. I still remember all the good talks and good sports we had in living in Erie and teaching 11 & 12th grade U.S. and European history. It's a great job! As Harold you're quite the celebrity - A+E network and the magazine! I have told many students about the book you and your work over the years! Four of them are using your books to do reports on me! I would love to hear from you - I have always told you work hard in my heart! Love, Kim
