BACKGROUND

By letter dated 8/25/67 the following offices were advised of the beginning of a Counterintelligence program against militant Black Nationalist-Mate Groups:

Albany Atlanta Baltimore Boston Buffalo Charlotte Chicago Cincinnati Cleveland Detroit Jackson Los Augeles

Hewark
New Orleans
New York
Philadelphia
Phoenix
Pittsburgh
Richmond
St. Louis
San Francisco
Washington Field

Memphis:

Each of the above offices was: to designate a Special Agent to coordinate this program. Replies to this letter indicated an interest in counterintelligence against militant black nationalist groups that foment violence and several offices outlined procedures which had been effective in the past. For example, Washington Field Office had furnished information about a new Nation of Islam (NOI) grade school to appropriate authorities in the District of Columbia who investigated to determine if the school conformed to District regulations for private schools. In the process WFO obtained background information on the parents of each pupil.

The Revolutionary Action Movement (RAM), a pro-Chinese communist group, was active in Philadelphia, Pa., in the summer of 1987. The Philadelphia Office alerted local police, who then put RAM leaders under close scrutiny. They were arrested on every possible charge until they could no longor make bail. As a result, RAM leaders spent post of the summer in jail and no violence traceable to RAM took place.

The Counterintelligence Program is now being expanded to include 41 offices. Each of the offices added to this program should designate an Agent familiar with black

nationalist activity, and intorested in counterintelligence, to coordinate this program. This Agent will be responsible for the periodic progress letters being requested, but each Agent working this type of case should participate in the formulation of counterintelligence operations.

GOALS

For maximum effectiveness of the Counterintelligence Program, and to prevent wasted effort, long-range goals are being set.

nationalist groups. In unity there is atrength; a truism that is no less valid for all its triteness. An effective coalition of black nationalist groups might be the first stop toward a real "Man Man" in America, the beginning of a true black revolution.

2. Prevent the rise of a "messiah" who could unify, and electrify, the militant black nationalist movement. Malcolm X might have been such a "Messiah;" he is the martyr of the movement today. Martin Luther King, Stokely Carmichael and Elijah Muhanmed all aspire to this position. Elijah Muhanmed all seprent of this position. Elijah be a very real contender for this position should be abandon his supposed "obedience" to "white, liberal doctrines" (nonviolence), and embrace black mationalism. Carmichael has the necessary charism to be a real threst in this way.

astionalist groups. This is of primary importance, and is, of course, a goal of our investigative activity; it should also be a goal of the Counterintelligence Program. Through counterintelligence it should be possible to pinpoint potential troublemakers and neutralize them before they exercise their potential for violence.

4. Prevent militant black nationalist groups and leaders from gaining respectability, by discrediting thom to three separate megaents of the community. The goal of discrediting black mationalists must be handled tactically in three ways. You must discredit these groups and individuals to, first, the responsible Magro community. Second, they must be discredited to the white community,

both the responsible community and to "liberals" who have vestiges of sympathy for militant black nationalist simply because they are Negroes. Third, these groups must be discredited in the eyes of Negro radicals, the followers of the novement. This last area requires entirely different tactics from the first two. Publicity about violent tondencies and radical statements merely enhances black nationalists to the last group; it adds "respectability" in a different way.

5. A final goal should be to prevent the longrange growth of militant black nationalist organizations, especially smong youth. Specific tactics to prevent them groups from converting young people must be developed.

Besides these five goals counterintelligence is a valuable part of our regular investigative program as it often produces positive information.

TARGETS

Primary targets of the Counterintelligence Program, Black Nationalist-Hate Groups, should be the most violent and radical groups and their leaders. We should emphasize those leaders and organizations that are nationwide in scope and are most capable of disrupting this country. These targets should include the radical and violence-prome leaders, members, and followers of the:

Student Nonviolent Coordinating Committee (SNCC). Southern Christian Landership Conference (SCLC). Revolutionary Action Hovement (RAM) Matton of Islam (NOT)

Offices handling these cases and those of Stokely : Carmichael of SNCC, H. Rap Brown of SNCC, Martin Luther King of SCLC, Haxwell Stanford of RAH, and Elijah Muhammed of NOT, should be alert for counterintelligence suggestions.

5. Submit, by separate letter, suggestions for counterintelligence action against the targets previously listed as field-wide. Thereafter, on a ninety day basis, each office is to submit a progress letter summarizing counterintelligence operations proposed during the period, operations offected, and tangible results. Any changes in the overall black nationalist movement should be summarized in this letter. This should include new organizations, new leaders, and any changes in data listed under number two above. Suggestions for counterintelligence operations should not be set out in this progress letter. Use the following captions:

Airtel to SAC, Albany RE: COUNTERITTELLIGENCE PROGRAM BLACK NATIONALIST-MATE GROUPS

The effectiveness of counterintelligence depends on the quality and quantity of positive information available regarding the target and on the imagination and initiative of Agents working the program. The response of the field to the Counterintelligence Program against the Communist Party, USA, indicates that a superb job can be done by the field on counterintelligence.

Counterintelligence operations must be approved by the Bureau. Because of the nature of this program each operation must be designed to protect the Bureau's interest so that there is no possibility of smbarrasment to the Bureau. Beyond this the Bureau will give every possible consideration to your proposals.
