note - This is not good enough but it is a basis for further expansion

GENTLEMEN

I have been for the past three years vitally interested in your organization. Vital is the ^{only} word I can think of that properly describes my feelings. There is and will be a vital need for a group of your caliber in the United States. I would like to join your group, but I am sadly in need of training and guidance, so to speak. I was told by the head of the CIA here in New Orleans that you are interested in individuals that in their own right might have the potential required. I have little knowledge of international politics but my curiosity has been implacably aroused. There is however, nothing in particular, to recommend me as a possible trainee with you force, except possibly my curiosity. I have however developed a very strong feeling of Materialism or Chauvinism about the United States. Anything resembling its cast expression upon her ancient Eagles, irritates me immensely. This possibility has been and is a constant cause of frustration to me and does not leave for the idea of ~~any~~ ^{subversive} activities within the country. My feelings & emotions are in many ways. Our land is a land of freedom, though I think regarding that freedom should be in

probably talked to. Our land is not their playground.
Its ~~name of~~ its freedom and honor depends on that
great intangible called the human soul. Here
Hutter discovered that he, quite frankly, could not
measure or abuse that spirit. In all of us there
is heart. The brain is a wonderful mechanism, but
without the heart and soul it is useless. We & Hutter have
a genuine feeling for our fellow beings. But we dislike
those insidious forces that would strike at our heart and
soul. Perhaps at first we feel their little stings and
perhaps we slumber on. But if they are consistent in their
venom, with that consistency, they seal their doom. 

I am 24 years old, attended and graduated from
New Orleans Academy, here and am now attending night
school at Tulane University. I hope that I will hear
from you.

Sincerely,

Godfrey P. Kulepatusk
