

W: Kerry. Mystery. He was to have been on ABC's AM tv today after several segments with  
men and Jack Andersen yesterday. No appearance, no explanation. I monitored both segments  
be certain. ~~But~~ Earlier he had said he was quitting his country. Then he said that  
what happened in Chile was JFK's fault, that the efforts to bribe include the accepting  
Blende, and that the ultimate dirtyworks were over his expressed objections. He says that  
there will be indictments from his conversations with DJ, one for sure Helms, a probable  
high corporate executive, and that there may <sup>be</sup> a conspiracy charge added to perjury. He  
was not able to hide his authoritarian belief that us running them is proper. HW 1/19/77
